NEWS AND NOTES - WEEK SIX, 2010

NEWS AND NOTES: Texas A&M had a commanding 222-63 yd edge at the half vs Okla St but Jerrod Johnson, who had 4 int and a costly fmbl kept the Cowboys in the game. It was 21-7 A&M at the half but OSU rallied for a 21-21 tie. A&M was SOD at the OSU33 and then int'd. OSU went 48/5pl for a TD and the lead. A&M went on a 43/9pl drive but Johnson was sk'd & fmbl'd and ret'd 63 yds for a TD, basically a 14 pt swing, 35-21. A&M put together a pair of 80 yd TD drives to tie it with 2:54 left then forced a punt with 1:16 left. The Aggies were at their own 46 when Johnson was int'd and ret'd 28 yds to the Aggie40 with 1:16 left. On the final play OSU got a FG for the win...BYU fell to 1-4 for the first time since 1973 and Utah St, who had lost 10 straight to BYU, won for the first ime since 1993. BYU trailed 31-10 when they socred a TD with :28 left. Ohio St did struggle vs llinois early with Ul geting a 55/9pl TD drive for a stunning 7-0 lead and the Illini led 10-7 before the half and the Buckeyes drove for 57 yds for a TD with :45 left for the lead. The key play happened on OSU's first poss of the 30. Terrelle Pryor ran for a FD but was inj'd and would not only miss 2' series, but when he returned, they basically handed the ball off to the RB almost every offensive play after that and OSU only managed an 11 pt win, 24-13...Florida St was possibly even more dominant than the score would indicate vs Virginia in their 34-14 win. They led 27-0 at half with a 292-42 yd edge and UVA's only TD's came on a 76/1pl TD pass early 30 and then trailing 34-7 they drove 70/14pl and on 4&gl from the 12 got a TD with 1:39 left... Vanderbilt/Connecticut was closer than the final as UC only had a 376-326 yd edge. VU led 21-14 with 5:30 left 1H when UC drove for a TD with 1:04 left. UC got a TD on their opening 30 drive then after a roughing the P gave them a FD, they got a 25 yd FG to lead 31-21. VU was int'd at the UC20 but UC fmb'd at the VUT. With 8:33 left UC got a 41 yd IR TD to clinch it....TCU continues to win unimpressively. Th NEWS AND NOTES: Texas A&M had a commanding 222-63 yd edge at the half vs Okla St but Jerrod Johnson, who had 4 int and a costly fmbl kept the Cowboys in the game. It was 21-7 A&M at the half Rutgers game was probably RU QB Savage being inj'd and missing the final series of the 2Q and the entire 2H. RU also had some short punts with a 35 yarder setting up a TU 30 yd drive for a FG and a 20 yd'r setting up RU for a 33 yd TD drive and TU led 10-7 at the half. After a 23 yd punt TU went 43/4pl for a TD and a 17-7 lead with 9:30 left. RU cut it to 17-14 after 30's and after punting 2x on 4th & 6 they were SOD at the TU36 with 1:38 left. The Knights got it back after an 18 yd TU punt but were int'd... The last few years Air Force had outgained Navy almost every season but came up short but this year they finally ended their jinx. This time Navy had a 17-13 FD edge. AF benefitted from a couple of key plays as Navy went inside their 20 3x but missed a FG and settled for 2 short FG's. AF also blk'd a punt and drove 15 yds for a TD after to lead 14-6. Navy's last drive got to the AF33 but they were int'd at the 22 and ret'd 10 yds with :25 left... It was a record breaking game for Baylor. Robert Griffin set a single game record with 444 totals yds and BU set a school record with 678 yds offense. BU got their largest B12 win ever and their biggest conf win since back in 1922 when they won by 47 over Arkansas as BU hammered Kansas 55-7... Miami, FI had a 280-169 yd edge at the half vs Clemson and led 27-14. CU turned the ball over six times but UM also turned it over 2x. The key happened with CU down by 6 when they were SOD at the UM20 and the Hurricanes drove 69/10pl for a 29 yd FG with 2:40 left. Two of CU's TO's came on their final two drives...Jeremiah Masoli accounted for 4 TD's vs Kentucky but his stats were average as he hit just 9-17-90 and rushed for 43 yards. It was business as usual for the Rebels who have had trouble holding big leads. They led this one 42-20 but gave up 2 TD's in the 4Q, the second with 1:40 left. Miss rec'd the onside kick at its 45 on a ball that bounced off numerous players hands including some UK players. After getting 1 FD on 3&19 with 1:05 left and UK had used their last time-out, Bolden ripped off a 33 yd run to the UK21 and the Rebels took a knee ... Minnesota lost their first 4 HG's of the season for the first time since 1983. Northwestern trailed almost the entire 2H as they got the apparent tying TD at 21-20 but missed the xp. Trailing 28-20 they got a TD with 8:12 left, forced a punt and got the go-ahead 27 yd FG with 1:58 left. UM, needing only a FG for the win, got to the NW39 but on 3&11 were int at the 40 and ret'd 9 yds with :17 left...Les Miles must have a collection of horseshoes and rabbit's feet at his house as once again LSU looked to be on their way to a loss but came away with the win. At least this time LSU had a yard edge of 432-217. Last year they were outgained by an avg of 328-305 but ended up winning 9 games. Against a Tennessee team, with a young O-line and QB making their first road start, LSU trailed 14-10 when they stopped the Vols at the LSU31 with 5:41 left. The Tigers drove to the UT1 with :04 left but the snap went past QB Jefferson and UT rec'd for the win and celebrated on the field. Unfortunately they had 13 men on the field and LSU got another crack at it after it appeared they had lost. They converted on the last play of the game for a 1 yd TD run and pulled out the 16-14 win. LSU also converted on 4&14 on their final drive with no time-outs left and sent 3 subs on the field as the clock continued to click down and it looked like Miles would have another time clock malfunction. Dooley pointed out that with LSU running 3 players on the field the rules state the D has to be given enough time to make a substitution and the refs should have held the play up until UT's D was set but that protocol was not followed...Pitt's Ray Graham ran for 277 yds in his first college start and Dion Lewis did not play (shoulder inj). The Pitt/FIU game was just 13-10 at the half and 16-10 after 30's. It was 23-17 Pitt with 12:07 left when they got some big plays. After Pitt converted on 3&13 with a 15 yd pass, Graham got a 79 yd TD run. After an FIU punt, Pitt went 45/60 with a 19 yd TD run then FIU was sk'd & fmbl'd at their own 16 (4:22) and Pitt got a 4 yd TD run with 1:32 left for a 42-17 score and it was not as comfortable as the final...UCLA faced Washington St without starting QB Prince. Richard Brehaut hit 12-23-128 yds but Johnathan Franklin rushed for 216 and Derrick Coleman for 185 as UCLA continued their strong run game. The key play of the game happened in the 4Q. WSU thought they had taken the lead, 35-28 when a 2&1 QB sneak was orig called a TD. After a review, they spotted it at the inch line. Two plays later on 4th & gl from the 1 WSU was SOD with 13:51 left. UCLA went 99/7pl with a 73 yd run by Coleman on 3&2 the key. After an 11pl drive, WSU missed a 45 yd FG and UCLA went 72/8pl for a TD with 3:04 left for some breathing room. WSU fmbl'd at the UCLA38 with :58 left...Michigan St held John Clay to 17 carries for 80 yds breaking his streak of 10 straight games of 100+. They also held Scott Tolzien to just 11-25 passing while Kirk Cousins was 20-29. MSU had a 230-118 yd edge at the half and led 20-10. At the end of the game, they faced a tough decision. They had a 4&gl at the 1, up 27-24. A FG would put them more than a FG ahead but they opted to go for it and got a 1 y out the 16-14 win. LSU also converted on 4&14 on their final drive with no time-outs left and sent 3 subs on the field as the clock continued to click down and it looked like Miles would have another timeonersive yards in a single game in school instory and in 5 starts already nas 1,008 pass yos and 905 rush yos in five games indicate and its rist selectic rowd since memorial staduum was renovated. Indi-ana's Ben Chappell hit 33-64-480 yds - all school records. The game could have been even higher scoring than the 42-35 final. In the 1H UM fimbl'd at the 1 and IU was int'd in the EZ...Oklahoma is beginning to make a habit of this. They have led each of their games this season by 17 pts and had been outscored in the 4Q, 41-10 coming into the Red River Rivalry. They were outscored again. OU led 21-7 at the half and appeared to clinch it with a TD making it 28-10. Texas used a fake punt which set up a FG and then stuffed Oklahoma on a fake FG for an 8 yd loss. Texas also took advantage of a 17 yd punt with 2:37 left for a 21 yd FG to pull within 28-20. UT kicked off deep as they had all 3 time-outs left and forced a punt with 1:02 left but finbl'd the punt and OU rec'd at the UT41 for their 8 pt win. UT did have a 26-15 FD edge... Toledo had a 374-266 yd edge vs Wyoming. They gave WY 2 TD's in the 1H, one on a 24 yd "drive" following a finbl and after a 30 yd punt, WY WR David Leonard's 37 yd TD pass to TE Chris McNeill made it 14-0. UT missed a 33 yd FG with 4:26 left 1H and in the 2H were SOD on 4&2 at the WY34, 4&8 at the WY30, 4&8 at the WY26 and on their final drive, were SOD on 4&5 at their own 49 with 2:34 left...Rice actually had a 24-17 FD edge vs SMU but gave up a 32 yd IR TD in the 1Q and trailed 7-0. It was 7-3 late 1H when SMU took over with 1:04 left but tMS upt as 20 yd So yds so yds so yds so yds so yds for a TD and left 14-3. Bice missed a 58 yd FG on the final Alve gave up a 32 yd IR D in the 1Z and FZ at TD to null within 14-10. Each team went on a long drive but SMU toot a TD and Bice had a for a TD and led 14-3. Rice missed a 58 yd FG on the final play of the half. Rice rec'd a fmbl'd punt in the EZ for a TD to pull within 14-10. Each team went on a long drive but SMU got a TD and Rice had a at the 3 but settled for a 35 yd FG. SMU not only blk'd it but ret'd it 77 yds for a TD to make it 28-10. SMU would extend it to 42-17 after an int but Rice got a TD with 5:04 left, rec'd the onside kick

and got a TD with 1:40 left...Last week NCSt was ranked for the first time since 2003 and they appeared on their way to a big win over Virg Tech leading 17-0. At the half they had a 299-187 yd edge but Russell Wilson had some costly int's. He was int at the VT18 with 8:17 left 2Q. On 4&9 they dropped a TD pass from the VT31 and then on 3&10 from the VT16 Wilson was int'd in the EZ again with :48 left 1H. NCSt, trailing 28-27, had a 14 yd gain to the VT 9 yd line but it was called back on a hold. On 4th &11 they settled for a 42 yd FG with 4:42 left, 30-28. VT got a 39 yd TD pass with just 1:27 left then a 46 yd IR got them to the NCSt6 and Evans got a 3 yd TD run after an offsides pen for a misleading 41-30 final in a game VT trailed with 1:40 left...Alabama did have a 268-96 yd edge at the half but Florida finished the game with a 281-273 yd edge but also had a 4-0 TO deficit. Each team went on a long drive to open. Bama got a 28 yd FG and UF on 4&gl from the 2 was int'd in the EZ on a jump pass. It was 24-3 at the half but UF opened the 3Q with a 69/10pl drive. They had a 1st & gl at the 5 but settled for a 21 yd FG. The Gators were cooked when they had the ball back down at the 18 and were int'd and ret'd 32 yds for a TD with 6:10 left in the 3Q. UF went 72/9pl and had a 1st & gl at the 2 but fmb'd. On their next drive, they were SOD at the Bama13 and Bama took over with 4:22 left and gained 37 yds and got 3 FD's running out the clock...

Continued from Front Page

USF played without leading rusher Demetris Murray but Moise Plancher rushed for 93 yds and 2 TD's. USF recorded a school record 7 sacks. USF did have a 291-208 yd edge. FAU came in avg 262 yog passing but was limited to just 136. USF blocked a punt and ret'd it 11 yards for a TD in the 1H but they also missed a 35 yd FG after a 15 play drive. FAU went 68/15pl editing a 29 d FG with :09 left 1H to trail 14-3 and that gave them they vardage edge at 141-128. USF scored a TD and a FG on 2 long drives to open the 3Q and then rec'a f mbl at the FAU45 and 6pl later had a TD with 12:00 left, 31-3. FAU was int'd at the 3 with 10:04 left in their only other chance to score... New Mexico's 3 scoring "drives" vs UTEP were a 27/4pl drive following a UTEP fmbl, a blk'd FG which they ret'd 45 yds for a TD and then after UTEP scored a TD with 3:37 left in the game, Myles Daughtry ret'd the ensuing KO 100 yds for a TD. That's how they accounted for 20 pts in a 38-20 loss. UTEP had a 456-347 yd edge... Southern Miss dominated Marshall as the score would indicate. They had a 266-46 yd edge at the half with Marshall Durining on their first 7 poss and it was 28-0. MU did get a 104 yd KR TD and trailing 34-7 a snap went over SM's P head for a safety. Marshall benched starting QB Anderson and AJ Graham hit 10-12-98 yds in the 2H...Duke went on three long drives but settled for 3 short FG's and led 9-0. They were at the Maryland 16 when they were int'd in the Z for a TB with 4:37 left in the half in a game they had dominated. Maryland then went 80/6pl for a TD with 1:21 left 1H to only trail 1:27. The Terps got an 84 yd PR TD early 3Q and then on 35 qot a 71 yd TD run by Scott early 4Q, 21-9. Duke got a TD and 441-176 yd edges while Buffalo had 6 TO's and BG 5. UB left BG in the game because they fumbled at the 2 and were int'd actif and ret'd 82 yds for a TD with 1:21 left. BG ince a 48.16 from the 50 and was int'd at the UB21 with 1:35 left but UB fmbl'd 2pl later and BG attempted a game winning 40 yd FG on the final play and missed

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Hatings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings.

Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays. **Garbage yards**: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings! Weather**: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses. Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

How Field Edges: The weekly projection of yards and points is weighted with the home field factored in. Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units remained rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

R **7-9. 2010 NOTE: Power Plays - PP**

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays Newsletter consists of the constant takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays takes. However, there are times when we will disagree with the Power Plays torecast. We want to make it clear that this is the Power Plays the towes takes up anywhere from 25 to 30% of our total analysis. You will disagree with the Power Plays torecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter and these is the Power Plays torecast. However, there are times when we will clearly note it. If the Power Plays steet that we like the other side of the game. With all that said here are this week's Power Plays Selections. PRO FOOTBALL OCTOBER 10th & 11th, 2010

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers & rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the storager the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers. SUNDAY, OCTORFR 10th

An angry BAL came out of their bye LW & crushed DEN 30-7 as a 3.5 pt HF. Both teams are off good wins with DEN beating TEN with a 4Q comeback bolstered by a 49 yd Def pass interference penalty. The Ravens snapped a 4 game road losing streak to PIT but are just 2-8 ATS afterwards. Both teams are having issues with balance offensively but BAL has the players on hand to correct while DEN is injury depleted at RB. PP gives the home team a 368-218 yd edge but the fact BAL is 2-8 ATS after NEW O PIT keeps this from being a stronger play.

LW's results give some line value to the Bills but its hard to side with a team that's been held to 225 yds in 3 of 4 games. BUF is only avg 1.39 pts per drive which is dead last in the NFL. JAX upset the Colts at home LW by forcing 2 TO's inside the Jags 25 & hitting a 59 yd FG. PP calls for a very even game here in terms of yards but with the line likely to shift during the week we'll hold off until SAN it solidifies so No Play.

INDIANA The Colts 1st 2 drives of the 2H vs JAX ended with TO's inside the Jags 25 which is what cost them the game LW. KC is 3-0 but their foes are a combined 3-9 right now. The "Patriots West" coaching staff is very familiar with how IND works & the bye week will help them in the film room. PP calls for IND to have a 469-320 yd edge but KC has the biggest special teams edge of the week. PP has this right around the line for now. The public is likely to jump on a team that is 5-11 ATS off a SU loss driving up ${}_{\mathbf{T}}$ the line so No Play.

A quarter thru the season its pretty surprising to see the Rams atop the NFC West. STL needed a calls for DAL to have a 400-268 yd edge but has this at the line for a No Play. fake FG to avoid the 2nd winless season in the modern NFL era LY vs DET. Bradford is a QB who the team feels can win games for them instead of just trying to avoid giving them away like LY. DET outplayed GB statistically LW (431-261) but 13 penalties & settling for 4 FG's in the 2H cost them the game. PP calls for the Lions to get their 1st victory (424-290 yd edge) but has this right around **PHILA** the line for a No Play.

ATL hit a 43 yd FG with 2 sec left for the win & now they have to travel vs a CLE team that is on a 9-1-1 ATS run. CLE has gone into the 4Q with the lead in each game TY but mistakes have them at 1-3. PP calls for a 41 yd diffference here & CLE does have Delhomme to help break down the Falcons defense. PP calls for ATL to get the win but CLE is a better team than LY & their record so this is a No Play.

The problem with CIN after winning the AFC North LY is that they are held to a higher standard especially with the big name players on offense. It's taken longer than expected to get the chemistry together & Palmer finally showed some intensity in the 4Q LW after WR Shipley was laid out in the EZ. TB is expected to have a 2nd year QB with 2 rookie starting WR's here & RB Williams (46 ypg 2.5) has been pretty flat so far TY. CIN is statistically superior team here (#11 & #6 +3 TO's vs #26 & #20 +4 TO's after SNF) & PP calls for them to have a 173 yd edge here. We need to see if CIN will adjust the playbook to incorporate Benson more this week making this a No Play.

Cutler was clobbered in LW's loss with 9 sacks & may not play due to a concussion. Fox's teams always play NO tough & they came close to the upset despite Clausen only having 146 yds (52%) with a TD. CAR lost their only proven receiving target in Steve Smith to a high ankle sprain & will now have to face an angry Bears défense here. There is no line as CHI's QB situation is in a fog making this a No Play.

The Packers are off a disa	ppointing win at	home vs the L	ions where th	ev were outo	ained 431-2	61 as

the defense allowed DET to convert 10 of 17 3rd Dns. WAS is off an emotional win on the road for McNabb vs a Div foe where they were outgained 281-104 after their 1st 3 drives. WAS has a limited receiving corps while the Packers lack of a run game after losing Grant may be catching up to them. PP calls for WAS to pull the upset but doesn't take into account the potential of an emotional let dowr vs a better team so No Play

The Texans rested WR Johnson LW & Foster (131 ys 8.2) didn't get the start due to missing meetings. HOU's defense capitalized on a below avg OL with 4 sacks & forced 3 TO's which they turned into 7 pts. The Giants were backed into a corner LW after giving away the TEN game. They vented on the Bears at home in primetime holding them to 6 FD's, 0 3rd Dn conversions & just 82 yds until their final drive. Without a line due to SNF though we'll have to call this a No Play but the Total is attractive here.

ARIZONA 115 193 17 2.8 #15 Yes NO is riding a 0-8-1 spread run but the offense is starting to open up with 132 yd edge LW vs CAR. The drove inside the Panther 15 five times but settled for 1 TD, 3 FG & had a fumble. ARZ is a shell of itself & the Falcons & Chargers proved that once you get a 2 score lead on them & put the ball in the hands of Anderson they'll implode. ARZ's receiving unit is very depleted & the OL has given up 1 sack every 8.5 pass att's (30th). NO is very affordable here & we'll side with Brees who saw the Cardinals at their best in LY's Divisional playoff win.

Statistically SD is dominant with the #1 rankings on Off & DEF but their #32 special teams has cost them 2 games. LW they dismantled the Cardinals with a 419-124 yd edge holding them to 8 drives under 25 yds. OAK is #10 & #11 statistically but 29th in sacks allowed & -3 TO's. In terms of overall yards they fared well vs HOU at home LW but they gave up 3 TO's & their run defense remains a major liability despite their offseason investments (162 ypg 5.3). RB McFadden (hamstring) is likely to miss & after failing to cover as DD fav's LY the line value here makes this very attractive.

DAL has won & covered 5 straight off a bye & Jerry Jones told them to come back with an 0-3 attitude despite the HOU win. DAL has the #5 & #7 units (-1 TO's) & despite the OL issues they've only given up 1 sack TY. Their 3.5 ypc avg is due to OC Garrett's imbalance play calling with an NFL low 69 rush att's. TEN is coping with the post-2000 yd RB letdown as teams focus on containing Johnson as the offense isn't built for aerial shootouts. TEN allowed 341 yds passing with #2 CB McCourty (broken arm) out. Andy Reid experienced his worst case scenario as Vick (chest) was KO'd & he was forced to play Kolb is an inspired WAS team. PHI pulled itself back from a 14 pt deficit twice to make a game of it & were in a position to win but couldn't pull it off. SF is 0-4 for the 1st time since 2004 & blew a 14 pt road win. They were in position to salt the game away in the 4Q. Instead of simply accepting the Int & giving the offense the ball to run it out the defender had the ball stripped from him giving ATL another chance.

The Vikings finally got into a groove with a 24-14 victory over DET & it remains to be seen if they can sustain it coming off the bye. Favre gets to face the team who let him transition out of GB for a year in 2008 before moving on. MIN accepted the fact they are a run to set up the pass team (#5 rush) for 2010 until they get the WR unit up to speed. The Jets are 4th allowing 75 ypg (3.2) on the ground. Sanchez has yet to turn the ball over TY (8-0 ratio w/ 0 fumbles) but MIN expects to have a fully healthy CB unit here.
