The first 5 poss of the game were punts then UAB QB Isabelle got a 50 yd yd for a TD. A key play happened with 4:11 left when on FAU's 56 yd punt, a holding call on UAB pinned them at the 1. UAB's punt only got out to the 38 and Morris got a TD run on the next play. UAB still had an easy shot at winning and in fact, on 3rd & gl from the 9, took a knee in the center of the field but Zahn's 28 yd chipshot FG was blk'd on the final play and FAU claimed the upset...Hawaii did have a 308-296 yd edge vs USC at the half but the Trojans led by double digits most of the game. Backup QB Mustain came in with USC up 42-23 early 4Q. UH gained 147 yds on their final 2 drives in the 49-36 loss. USC did not have contact during their practices in the month of Aug as they are low on scholarships and that may have had something to do with UH's 588-524 yd edge for the game ing 405-266 yd edge on the day. Utah appeared to lead comfortably 24-13 bút Pitt rallied back for a 24-24 tie on a FG with :00 left. Utah got an int in OT and kicked the game winning FG for the 3 pt win. Iowa QB Ricky Stanzi was injured in the 2Q but ret'd. MSU was then pinned back on their own 2 and got a 75 yd run by Bell which set up a TD for a 21-7 lead. In the 4Q, MSU got a 33 yd FG with 7:30 left to go up by 24. WM had a 2nd & 1 at the 7 yd line but on 4th & 1 fired incomplete with 4:10 left. Louisville trimmed it to 23-16 with 3:16 left but kicked off deep and UK got 3 FD's and ran out the clock and finished with 230 yds rushing and 236 passing...The pressure was on Michigan to open strong and Denard Robinson accounted for 383 yds incl a school QB rushing record 197 yds. It was a football attendance record crowd of 113,090 in the newly expanded Michigan Stadium. UM jumped out to a 21-0 lead. Conn converted on 4th & 2 for a TD with :17 left in the half...Oregon tied an Autzen Stadium record for points with 72. They set a team record with 720 yards. UO had a commanding 35-8 FD edge. Their D allowed just 5 FD's...AF only led Northwestern St 24-21 but scored TD's on their first six 2H poss to blow it open...Alabama was without Heisman winner Mark Ingram and their top defensive player Marcell Dareus but it hardly mattered vs San Jose St. The Tide scored TD's on four of their first 5 drives, fumbling into the EZ for a TB on the other. NCSt finished with 25-9 FD and 480-189 yd edges... A look at the box score shows N Texas with a dominating win as they held the ball for 41:52 and had a 25-15 FD edge vs Clemson. Unfortunately for NT they lost by 25. have a 60 yd TD run by Ellington and a 70 yd TD pass to Clear which kept the ydš close in the game and provided the TD's. NT was int'd at the CU6 and int'd in the EZ for a TB and settled for a 25 yd FG. They ended the game with the ball at the CU29...The Oklahoma Sooners did not look like a national title contender in the opener. They did jump out to a 21-0 lead and it could have been 28-0 late 2Q as they had a TD pass called back for illegal formation and then had an int at the 24 on the next play. USU QB Borel's ability to convert on 3rd & long was the key and he threw for 340 yds. Utah St scored 10 the provided and the pass careed back to mergan formation and mer have an intervention and the pass careed back to mergan formation and mer have an intervention and the pass careed back to mergan formation and mer have back to mergan formation and mer have back to mergan back firsh QB to start an opener for NU ever and guided TD drives on his first 2 series. Leading 42-10 WKU only got off a 4 yd punt and NU drove 13/2pl to get ahead of the spread, 49-10 with 6:56 left. NU finished the game at the WKU9 on the final play... Memphis crossed midfield 4x in the 1H but missed 2 FG's and had a holding call wipe out a 1st & 10 at the 15. While Relf started and did well, backup QB Russell was the star hitting 13:16-256 yds and his 4 TD's tied a school record...An amazing stat is that ND coaches making their debut are now 26-3. ND led 20-3 and was about to make it 27-3 when they fmbl'd into the EZ and it was ret'd to the 6. That changed the momentum and Purdue would get 9 pts on a safety & TD to pull within 8 but the Irish got the spread covering 37 yd FG with 4:30 left and ended the game at the PU30 yd line...Virginia did lead Richmond just 14-13 and leading 21-13 Richmond was SOD on 4th & 1 at the UVA45. GARBAGE TD'S: Boston College got the great return of LB Mark Herzlich to the lineup vs Weber St. Boston College's first play of the season was a false start followed by an int which set up a Weber St FG. BC dominated the rest of the half leading 31-10. UCF punted once all game in their dominating 38-7 win. MISLEADING SCORES, FRONTDOOR COVERS: Showing how scores can be misleading, you may have heard that John Brantley had the Florida Gators up 21-3 ore Miami, Oh. In reality, UP had a grand total of 17 yards TOTAL OFFENSE with 6:33 left in the 30. They were outgained 102-13 at the half but were up 21-6. Their int TD came when Brantley on 4th & 21, flung a ball in the air that bounced off a UF player and Rainey grabbed it for a 25 yd TD with 1:21 left. It was the most unimpressive 34 oths scored and UE and MU each actually had iust 212 vds offense despite UF's 22 ot win... UCLA was missing 3 OL for the game vs Kansas St

#### Continued from Front Pa

InJURIES OF NOTE: Middle Tenn was without QB Dasher (susp) vs Minnesota. In the 1Q they had just 33 yds but backup QB Kilgore came to life in the 2Q where MT had 174 yds offense and it was tied at 14 at half with MT having a 207-198 yd edge. Minny kept it on the ground most of the game as RB Bennett had 187 yds rushing. They did have a 12 play drive end in a punt but then pinned at their 1, went 97/13pl settling for a 19 yd FG with 14:11 left. They went 77/15pl and got a TD with 3:09 left then MT fmbl'd the ensuing KO and Minny ran out the clock.

HEISMAN HOPEFULS: Terrelle Pryor is one of the preseason favorites to win the Heisman and opened up in fine fashion. He hit 17-25-247. Marshall fmbl'd the opening KO and OSU went 22 yds for a TD and dominated much like the final of 45-7 indicates. In fact, MU's only score came on a blk'd FG which they ret'd 61 yds for a TD. OSU had a 529-199 yd edge and Pryor's last play came with 12:20 left 4Q... Arizona dominated Toledo on Friday night. They had a 518-183 yd edge and QB Nick Foles perhaps entered the Heisman race by hitting 32-37 passes for 360 yds in an impressive debut performance. Ark handled Tenn Tech and QB Ryan Mallet hit 21-24 passes for 301 yds and one of his incompletions was a TD pass that was dropped.

FIRST WEEK SHUTOUTS: Central Michigan beat Hampton 33-0 but their first 16 pts came on 14 yds of offense as Hampton had a snap go over the P's head for a safety then after an 81 yd return of the free kick, got a 2 yd TD drive. Then after a fmbl'd KO, drove 12 yds for a TD to lead 16-0. HU also had a -4 yd punt which set up a 40 yd TD drive and was int'd at the CM17 in the 1H but CM did miss a pair of short FG's late and finished with a commanding 26-11 and 427-129 yd edges...Buffalo recorded its first shutout win since 2001 and had a 423-207 yd edge. They only led 10-0 late 2Q when they rec'd a fmbl with 3:34 left and got a 38 yd TD pass on the next play. They added a 46 yd drive for a TD with :40 left to lead 24-0 at the half. Rhode Island missed a 29 yd FG in the 3Q...Idaho got their first shutout since 1997 and QB Enderle threw for 311 yds playing just in to the 3Q. IU only led 17-0 at the half and they rec'd an onside kick to open the 2H and rolled to the 45-0 win with their final TD coming with 1:26 left... It appeared Rutgers only led Norfolk St 3-0 at the half. A 3rd & 16, 29 yd pass to the 3 was ruled with no time left. :01 was put back on the clock and RU was able to get a 20 yd FG to lead 6-0 but still left the field to boo's. A blocked punt for a TD opened up a 21-0 lead mid-3Q and the Knights added 10 pts in the 4Q in their 31-0 shutout win....Miami, Fl got their first shutout win since 2006, the year before Randy Shannon was on board. UM dominated with a 35-0 halftime lead and Jacory Harris played only the 1H. Fla A&M did have a 50 yd FG bounce off the upright on their 2nd drive which would have averted the shutout...West Virginia got their first home shutout since 1997. They had an 11-2 FD edge in the 1H but did fmbl in the EZ for a TB and only led 10-0. It was 17-0 and CC missed 47 and 42 yd FG's in the 3Q before WV went 75/9pl and 63/5pl for TD's to put it away and won 31-0.

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings.

Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings! Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances.

Our Power Ratings reflect the conditions and do not give excess credit to the defenses. Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in. Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units remained rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

#### OR MINUS RTHCOAST SPORTS PL US

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

#### **NOTE: Power Plays - PP** EGE FOOTBALL September 9-11th, 2010

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4 + Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of or stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. TEN Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers.

TB QB Freeman sat out 2.5 weeks of preseason and in his 1st start. SD has much more talent overall but they are notoriously slow starters (1-5 ATS only had 19 live snaps due to a thumb injury. GB does have injury issues at LB (Matthews) and in the secondary (SS Bigby, CB Harris). Kolb (324 yds 53% 0-1) only has 2 starts under his belt and PHI was very conservative in the preseason. SF enters 2010 as the NFC West favorite and we think Alex Smith will have a solid year. SF has played most of preseason without their 3 big offensive weapons (Gore, Davis, Crabtree) who were being rested. SEA's 12th man will be very energized thanks to Pete Carroll but SEA's OL is a work in progress (LT Okung) and their LB's have been beat up as well. However, Hasselbeck is now the best QB in the division and the WR's are decent enough have PP making this close to the line for a No Play.

Every year there is a game that stun the NFL in opening week and PP forecasts it to be this game. ARZ was the big loser in terms of FA TY and their QB situation is very murky especially since Fitzgerald (knee) hasn't practiced since pre-1. STL will basically have 2 rookie OT's, the worst WR's

The Cowboys have more talented depth overall and a vastly better WR unit which will make Shanahan's debut rather challenging.
