This issue of Power Plays is a special Double Issue which has 35 bowl game forecasts plus next week's NFL. This action-packed Double Issue does exceptionally well, with the 4\*'s (and higher, did have 4.5★ LY) on a 112.5-36 76% run the L/4Y (on the ★ basis). With the Double Bowl Issue of Power Plays you get the same great Power Plays forecast you're used to PLUS a bowl checklist for each and every game. This checklist assigns checks based on who has the edge in such categories as: Coaching, Turt/Crowd, Intangibles, Schedule, and all positions and proves an invaluable addition to your handicapping arsenal. Remember, each check represents approximately one point.

As you know, our Power Plays take into account things like: strength of opponents faced, and is adjusted after games for weather, garbage yards, injuries, etc. It is the most accurate set of power ratings in the country. These forecasts give you a projected box score for each game so you can see a possible outcome for the game. The forecasts include yards rushing, yards passing, turnovers, special teams edges and, of course, a score based on the Power Plays ratings. For the Double Bowl Issue we include our average opponent rating. This is another great way to analyze the difference between the two teams meeting on the field.

In this issue we've included one week of NFL forecasts. Those of you who are also Power Sweep Subscribers will see that the Power Sweep puts two weeks of NFL forecasts in its version of the Double Bowl Issue. As a Power Plays Subscriber, you will have access to a special single page issue of the Plays next week which will provide you with NFL forecasts for Week 16. The staff here at Northcoast Sports would like to wish you and your family Happy Holidays and a prosperous New Year. As always, thank you for reading Power Plays.

# Who Faced the Toughest Schedule in 2010?

What makes our Toughest Opponents Faced rankings far superior to the NCAA method is that ours takes into account 9 sets of power ratings, combines them and factors in every team's schedule this year. We did this not only for the bowl teams, but for all the NCAA teams and found out which teams played the toughest schedules this year. Iowa ranked #34 in the NCAA rankings with an opp W/L % of 57.3% playing 7 gms vs teams with winning records but played our #65 toughest schedule including games against 2-9 Eastern Illinois, 4-8 Ball St and 3-9 Minnesota. Per the NCAA, Kentucky faced the #103 toughest schedule with an opp W/L % of 45.9% facing 4 teams with winning records but took on our #57 schedule facing 6-6 Louisville, 6-6 Georgia, 4-8 Mississippi and 6-6 Tennessee that were all better than their records indicate. Washington had the toughest slate among bowl teams and Middle Tenn had the easiest. The 2010 bowl teams are in boldface.

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers & rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after \[ \] a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home, home offensive ranking vs visitor defensive ranking). THURSDAY, DECEMBER 16th

(SF #25 vs SD #2, SD #12 vs SF #9) - Both teams dominated overmatched foes LW as SD stayed alive in the AFC West with a 31-0 win over the Chiefs with Croyle at QB. SF switched back to the spread for Alex Smith and rolled up 40 pts on just 10 1st Dns forcing 5 TO's. With both teams off big wins with a short week we'll hold off on making a call as we want to see where the line settles here.

#### NO PLAY: CHARGERS 29 49ERS 15 SUNDAY, DECEMBER 19th

by SD LW with Croyle filling in. STL was never in our 5★ NFL GOY winner on NO LW as the Saints rattled the Rams with relentless pressure with 17 plays behind the LOS, 2 Int and holding Bradford to 56%. There is no line as Cassel's status hasn't been announced here.

## NO PLAY: RAMS 19 CHIEFS 18

|           | Rushing | Passing | Points | Overs | Teams |
|-----------|---------|---------|--------|-------|-------|
| HOUSTON   | 148     | 248     | 23     | 1.0   | #28   |
| TENNESSEE | 88      | 240     | 21     | 1.9   | #6    |

(HOU #5 vs TEN #31, TEN #28 vs HOU #24) - TEN snagged a backdoor cover vs IND LW with a final drive that was helped out by a defensive offsides penalty on a play where the Colts Int'd Collins which would have ended the drive. TEN's stats are worse than the L4W ranking show as they have been outgained by an avg of 117 ypg (31st) with -8 TO's in that span. HOU is off a MNF game vs BAL and are on their 4th road game in 6 Wks here. With no line do to MNF this is a No Play though.

## NO PLAY: TEXANS 23 TITANS 21

|              | Yards<br>Rushing | Yards<br>Passing | Points | Overs | Teams |
|--------------|------------------|------------------|--------|-------|-------|
| JACKSONVILLE | 185              | 158              | 27     | 1.6   | #4    |
| INDIANAPOLIS | 77               | 353              | 29     | 1.5   | #31   |

(JAX #7 vs IND #20, IND #4 vs JAX #15) - With the Colts resetting themselves vs TEN LW (399-288 yd edge) & the Jags rebounding from a sloppy 1H vs OAK this essentially the AFC South Championship game. JAX is 6-1-1 ATS in IND but the Colts should be at as close to 100% as they can be here. PP gives the Colts a decent yardage edge (+87) but with JAX having a big special teams edge and PP forecasting this to be close this is a No Play.

## NŎ PLAY: COLTŠ 29 JAGUARS 27

|          | Yards<br>Rushing | Yards<br>Passing | Points | Turn<br>Overs | Special<br>Teams |
|----------|------------------|------------------|--------|---------------|------------------|
| ARIZONA  | 118              | 148              | 21     | 2.2           | #9               |
| CAROLINA | 178              | 160              | 20     | 2.6           | #13              |

(ARZ #27 vs CAR #23, CAR #26 vs ARZ #12) - Its amazing what getting "below avg" QB play can do as ARZ fielded a balanced attack & their 211 yds rushing (6.2) was just 8 yds less than their L3 games rushing combined. CAR got off to a miserable start vs ATL being outFD 13-2 & outgained 202-33 at the half. They now have the situational edge with ARZ off a 3 game home streak coming cross country & its unknown if Whiz will stick with Skelton or go back to Anderson here. PP leans with ARZ but we need to see who the Cardinals start so No Play.

# **NO PLAY: CARDINALS 21 PANTHERS 20**

|            | Yards<br>Rushing | Yards<br>Passing | Points | Turn<br>Overs | Special<br>Teams |
|------------|------------------|------------------|--------|---------------|------------------|
| CLEVELAND  | 112              | 163              | 20     | 2.0           | #2               |
| CINCINNATI | 120              | 225              | 21     | 2.4           | #30              |

(CLE #30 vs CIN #28, CIN #32 vs CLE #11) - Both teams had miserable efforts LW win CIN being outgained by 164 yds vs PIT which was expected in a 3★ LPS winner as they were beat up and not giving 100%. CLE was outgained by 136 yds vs BUF as OC Daboll had a horrible gameplan with only 2 drives over 50 yds. Delhomme lacks the arm strength to push the ball and doesn't have Wallace's/McCoy's mobility to make something out of bad playcalls. PP gives CIN a 70 yd edge here but has it right around the number making it a No Play.

# NO PLAY: BENGALS 21 BROWNS 20

|         | Yards<br>Rushing | Yards<br>Passing | Points | Turn<br>Overs | Special<br>Teams |
|---------|------------------|------------------|--------|---------------|------------------|
| BUFFALO | 92               | 168              | 11     | 2.0           | #22              |
| MIAMI   | 171              | 153              | 21     | 2.1           | #29              |

(BUF #15 vs MIA #4, MIA #31 vs BUF #18) - MIA's defense deserves a lot of credit for holding onto a 10-6 win LW as the offense showed nothing with just 6 FD & 131 yds. Henne looks to be a QB that needs a strong run game to back him up but MIA lacks that right now. Gailey has done an excellent job with a piecemeal offense TY keeping them competitive (5-1-2 ATS since bye) despite a defense that needs a lot of help. PP gives MIA a 64 yd edge here & a 10 pt win but the road team is 10-3 ATS in Dolphins games TY & we lean with the Dog here so No Play.

## NO PLAY: DOLPHINS 21 BILLS 11

|              | Rushing | Passing | Points | Overs | Teams |
|--------------|---------|---------|--------|-------|-------|
| PHILADELPHIA | 140     | 235     | 26     | 2.0   | #21   |
| NY GIANTS    | 128     | 245     | 28     | 2.8   | #23   |

(PHI #3 vs NYG #25, NYG #13 vs PHI #14) - PHI staved off a hard playing DAL team LW on SNF but the amount of hits that Vick has taken recently is starting to pile up. The Giants had a solid gameplan in the 1st meeting holding Vick to 258 yds passing & 34 yds rushing. However they made mental errors on 3 key plays according to Coughlin dropping the Giants to 0-5 SU & ATS vs PHI inc playoffs. With the Giants/Vikings game having been relocated to MNF there is no line at this time though making this a No Play

#### **NO PLAY: GIANTS 28 EAGLES 26**

(WAS #11 vs DAL #30, DAL #10 vs WAS #21) - Despite a 4-9 record and being out of the playoff chase the Cowboys are playing loose & well for Garrett over the L4W.WAS is 8-3 ATS vs the Cowboys but their mental state after watching the game tying XP go awry after giving up 11 FD & 221 yds to TB in the 2H is unknown. PP gives DAL a 10 pt win & a 64 yd edge here & we'll side with the home team playing good ball as they audition for their potential coach in 2011 vs a depleted Redskins team still adjusting to Shanahan.

(DET #16 vs TB #8, TB #22 vs DET #10) - TB's resilency & luck has been very impressive TY as they came back from a 14-4 FD & 272-144 vd deficit in the 1H to steal a win from WAS due to a missed XP. DET ended a 19 game Div losing streak vs GB LW after KO Rodgers & holding GB to just 2 FD & 68 yds in the 1H. PP likes DET to keep this within the number & we'll take the healthier Lions vs a TB team that had just 1 starter at his original spot on the OL LW, a defense that has lost 4 defensive starters including DT McCoy (biceps) in the L3W.

| BALTIMORE          | 121     | 255     | 24     | 1.0   | #24   |

(NO #1 vs BAL #6, BAL #17 vs NO #26) - NO is back to playing like the 2009 Saints & it showed as they jumped out to a 21-6 lead in the 1H holding STL to 5 FD & 149 yds in our 5★ NFL GOY winner LW. BAL is off LW's MNF game vs HOU and they have been vulnerable to elite QB's the L2Y. This is a no play as we want to see how BAL did, check the weather as well as see what the line will be here.

NO PLAY: RAVENS 24 SAINTS 21

(ATL #18 vs SEA #32, SEA #9 vs ATL #13) - This is the Falcons 3rd road game in a row & while they cruised past CAR LW (13-2 FD 202-33 yd edge at half) they are now getting a SEA team that was rolled by SF LW.TO's (-5) & an inabilty to stop the big play doomed them LW as it was 40-7 before SF let up late 3Q. PP likes ATL by 2 TD's here but the situation favors SEA & we want to see their injury report later this week so No Play.

NO PLAY: FALCONS 34 SEAHAWKS 20

(NYJ #19 vs PIT #1, PIT #6 vs NYJ #3) - Ryan was critical of his defense after it put in a solid effort holding MIA to 6 FD's & 131 yds as Sanchez continues to slump since the bye week (52% 6.6 ypa 7-10). PIT is playing very well statistically the L4W and after slipping up vs BUF the defense has been instrumental in their L2 games stealing a win vs BAL & dominating CIN. PP likes the Jets to once again struggle vs a winning foe (1-4 SU & ATS) & we agree.

(DEN #24 vs OAK #29, OAK #20 vs DEN #27) - Despite a 17-7 1H lead (237-107 yd edge) slip away in the 3Q the Raiders didn't give up on the game like they would have in previous years. DEN was beyond bad LW vs ARZ giving up 211 yds rushing (6.2) to the #31 rush offense going into the game. OAK is 7-2 ATS vs DEN & tallied 328 yds rushing (6.3) in the 1st meeting TY. PP calls for OAK to earn another 200 yds rushing with a 3 score margin vs an overmatched Interim HC in his 2nd road start for a team on the road for the 3rd straight week.

(GB #7 vs NE #17, NE #2 vs GB #5) - NE dismantled the then #3 defense on the road in a blizzard as Brady hung 339 yds (68%) & 2 TD's on the Bears. GB is off a surprise 7-3 loss to DET where Rodgers sustained his 2nd concussion of the season & his status is very shaky here. Without a line here this is a No Play. MINNESOTA 104 203 18 2.2 #20 (CHI #29 vs MIN #7, MIN #23 vs CHI #19) - There is a very good chance that this game could be moved to the Golden Gophers stadium as the Metrodome may not be available here. CHI is off a humbling loss to NE where the Patriots had as many points as CHI had yards at the half (33). Without seeing how MIN did vs NYG in LW's relocated MNF game, the status of Favre's shoulder or how effective Jackson was in relief this is a No Play. We offer a MONEY BACK PLUS Guarantee on MNM through the NC Debit Card System - take advantage on Monday night after 3:00 pm EST! Pay just \$30 for the MNM Play and if it fails to cover - you'll get \$40 back on your debit card the very next day! Monday Nights now 9-3-1 75% on the year (as of 12/12/10).
