The Knights missed crucial FG's of 42 and 23 yards which kept K-St in the game. UCF also settled for a 27 yard FG with 5.14 left and K-St drove 67/13pl and got a 7 yd TD run with 24 left for their first lead of the game and won. UCF had 20-11 FD and 344-272 yd edges... USC may not be having a memorable start under Lane Kfifn but he is the first USC coach to begin his career 4-0 since Jess Hill did in 1951. Army did have a long drive with a 33 yd FG blk'd and led 21-7 at the half and Army had a 173-80 yd edge. It was 35-7 when Duke gained the majority of their yards. They went 82/8pl for a TD, 43 yds but were int'd in the EZ from the Army34 then went 67/5pl for a TD with 1:41 left which made the final stats 372-333 in favor of Duke...Ohio St is now a perfect 4-0 ATS but surprisingly their D gave up 3 long drives to E Michigan. One came early 2Q, a 75/9pl TD and at the end of the half, 73/7pl TD and OSU only led 38-14. EM pulled within 45-20 after an 80/6pl TD drive but OSU scored TD's 4 of their 5 next poss to get their highest point total since 1950 at 73. Dane Sanzenbacher became the first OSU player with 4 TD rec in a game since Terry Glenn did it in 1995. OSU did finish with a 33-13 FD edge and over 300 yards both rushing and passing while EM had 248 total...North Carolina was playing once again without 12 players including 7 starters. Linebacker Bruce Carter had a big day with a 55 yard IR which set up a 28 yd TD drive and he also had a blk'd punt which set up a 27 yd drive for a 25 yd FG and NC led 17-13. RU got to the NC19 but was int'd at the 7 with 2:42 left. They had 1 more shot after a 26 yd NC punt. They took over at their 34 but on 4&14 fired incomplete...Northwestern and C Michigan were tied 13-13 at the half but NU went on an 11pl drive for a 27 yd FG then after an int, got a 25/1pl TD pass to lead by 10. CM went 64/8pl for a TD and then went 86/11pl including a 4&15, 20 yd pass to the NU25 which set up a TD with 1:11 left to get them under the number, 30-25. NU rec'd the onside kick and took a knee... If you followed along the scores on Saturday With the value of the impression that Temple outplayed PSU for most of the game as TU had a 13-6 lead after 10, 13-9 at the half and lead 30 stilled 13-12. The story of the game was PSU moved the ball but settled for Collin Wagner tying a school record with 5 FG's. Royster rushed for 187 yds and PSU had 216 yds rushing and 223 yds passing with a 20-8 FD edge as they held TU to just 202 yds. In the TUS where they were SOD again with :19 leit. Missouri had 19 yd FR on Niami Oh's first offensive play for a TD and simply dominated. In the 11, µ28-3, MO drove 61/10pl and had a 1st & 5 at the 10 but was into 10 the ZE for a TD. They extended it to 51-6 after 30's and were about to make it 58-6 when they were SOD again with :19 left. Myooning led AF 14-7 after 30's and AF needed a TD with 3:41 left of 1. The story of the game was PSU went of the final stats and you'll see MO "only" had 469-316 yd and 25-19 FD edges, but MU gained 98 of their yds on a 15pl drive and got 5 FD getting a garbage TD with 1:40 left...Wyoming led AF 14-7 after 30's and AF needed a TD with 3:41 left out a 20-14 win. Statistically the game was not even close with AF having 27-12 FD and 445-240 yd edges. AF was into in the ET on 2nd & § j0 n their first drive, missed a 26 yd FG after an 11pl drive and at the end of the half, went on a 48 yd drive for a 39 yd FG but had a bads apap. In the 30 AF was SOD at the WY38 and int'd before driving 78/16pl and 80/14pl for 2 TD's and a 20-14 lead. AF ended the game at the WY28 yd line taking a knee....NC State did have a 27.15 FD edge vs Georgia Tech and a 52-363 yd edge but the State for Was 300. Or to back in it with a 38 yd TD pass then Russell Wilson, who had 168 passes without an int, was not only int but ret'd 33 yds for a TD which made it 31-28 with 12:05 left. NCSt drove for a TD with 8:31 left and then GT upt of desperation went for it on 4th & 10 at their own 31 and the pass without an int, was not only int but ret'd 33 yds for a TD which made it 31-28 with 12:05 left. NCSt drove for the game you were probably under the impression that Temple outplayed PSU for most of the game as TU had a 13-6 lead after 1Q, 13-9 at the half and late 3Q still led 13-12. The story of the game was PSU moved

fmbl'ing at the WF36, FSU only led 10-0 early 3Q. Up 17-0, WF was driving when they fmbl'd at the FSt32. FSU went 68/9pl for a TD with 7:28 left to get ahead of the spread. He had been the starting QB at NT LY but with an inj'd shoulder limiting his throwing ability, he moved to WR. With inj's to their top 2 QB's, he's back at the QB spot and hit 10-15-146. He guided NT to a 423-357 yd edge at FAU, a game NT led 21-10. FAU did rally back and at the end had a FD at the NT28 down by 4 but a sk forced a 4th & 16 and FAU fired incomplete... Nebraska spent most of the 1Q vs South Dakota St bottled up inside their own 20 and was very unimpressive as a 44 pt fav vs SDSt. They did get a 96/6pl drive for a TD on their 3rd poss then went 54/4pl for a TD on their 4th but only led 14-0 at the half. Taylor Martinez, who had rushed for 100 yds in each of the first 3 games, was held to 67 and also had a fmbl and 2 TO's. EDS blew some chances. They had a 1st & gl at the NU2 in the 1H and were SOD. MSU rec'd the onside kick...Idaho appeared in control vs Colorado St as they had 4 long drives in the H. On the first they were SOD at the CSU29 but they got 1 TD and settled for 31 and 32 yd FG's to lead 13-0. CSU took over with 4:32 left in the half and got a TD with :28 left. On the next play, ND was int'd and ret'd 20 yds for a TD and a close game turned into a blowout, 34-6. ND got a 14 yd TD pass in the final seconds called back on a hold and SU walked away with a 37-11 with which was ND's 11th straight loss vs a Top 25 team and 3rd straight loss of the season as they now have lost 7 using a fake 23 yd FG for a TD to take a 17-16 lead with :04 left in the 3Q. MU converted on 3&11 and 3&10 on their next drive, the latter for a 12 yd TD pass and a 25-17 lead. OU opted to punt with 2:31 left on 4th & 14 at its own 16 but MU was SOD with 1;01 left at the OU28. On 3&2 when a FD would have ended the game as only :53 remained and LA could have taken a knee, Coleman ripped off a 29 v/d TD run to put the game Over the Total.

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected: **Strength of Opponent**: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays

took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings.

Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings! Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power

Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense. Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third is the gruntry in points allowed in the country! The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays takes up anywhere from 25 to 30% of our total analysis. You will desarre with the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays Intercasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power raings. You should never use just one method, system or angle to determine your handicapping. used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of IN stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers.

Despite being outgained by 200 yds the Titans came away with the win vs the Giants who selfdestructed with 6 personal foul penalties & 2 red-zone TO's. Johnson got back into the groove with 125 yds rushing (3.9) & takes on the #18 defense that was disected by IND. Orton hit for 476 yds in the loss but on 5 drives into the Colts 20 they came away with 2 FG's & 3 SOD. PP gives TEN a slight yardage edge with the 10 pt win but the Titans lack of consistency so far tempers the play.

89 total rushing yards (2.2). The natural reaction here is to exhale especially with a bye on deck but a surprise upset or 2 each year & we have to disagree with PP here BAL is their primary division rival. BAL's 24 pts vs CLE isn't that impressive after being held to 10 pts in the 1st 2 games. RB Rice (knee sprain) left LW & his status is unknown. PP thinks BAL will have a slight yardage edge but PIT has the defense, special teams & home edge here for the play but the line shift keeps it from being a higher play.

CLEVEL CLE did find some good things out of LW's loss to the Ravens. Hillis became the 1st CLE RB to rush for 100 vds vs BAL, Wallace was effective in the scheme & despite being without 5 starters (& losing RT St Clair on the 1st drive) the team didn't quit. CIN came thru as a 3.5 + LPS LW but Palmer didn't look comfortable & realistically should have been Int'd 6 times. The dog has covered 6 straight & with the yards being fairly even a small play on the dog here is reasonable.

GB is off LW's MNF showdown vs CHI with the winner getting an early jump on the Vikings. Rodgers has shredded DET for 336 ypg (70%) with an 11-1 ratio in his 4 starts. DET's 10 pts LW came off Favre's 2 lnts but their back 7 issues will haunt them until they draft LSU's Patrick Peterson. Its not a surprise that PP sides with ATL by 3 TD's & 144 yds at home. SF's issues stem from the OL which hasn't helped RB Gore (64 ypg 3.7) find his way. The OL pass protection issues also are forcing Smith to checkdown too much & not take advantage of Crabtree's deep threat ability. ATL snapped a 4 game losing streak in OT to the defending SB Champs & the media will be playing them up as the NFC West winners. The line shift sides with the more desperate team who needs a win with a SNF Nite game on deck & this is a No Play.

STL is off their 1st home win for Spags despite losing RB Jackson (groin) for the 2H vs WAS. The Jets avenged LY's 2 losses vs the Dolphins via the offense with a last second defensive hold. Sanchez has yet to throw an Int in 79 pass att's & the loss to BAL to start the season isn't looking as bad as the year goes along. Ryan will be all over the defense which isn't expected to have Revis again. This is a flat spot for the Jets after BAL, NE, MIA & MIN on deck on MNF so some letdown is possible. This is a flat spot for HOU after 3 big games to open the season with another marquee PIT is a surprising 3-0 without their #1 QB thanks to a defense that has held the opposing #1 RB's to team (Giants) on deck. OAK knows they can compete with the right QB for them. They are good for

Despite talent differences some teams simply matchup well & the Redskins lost a very winnable game vs STL LW. They couldn't stop the short passing game & were 1 for 10 on 3rd Dns while giving up 7 for 16. They also lost P Bidwell in the pregame warmups which hurt the field position battle. The media is giving Vick lots of press & labeling him an elite QB. The reality is that his struggles with ATL had teams shy away from the mobile QB's & defenses aren't really prepped for it. PP calls for PHI to have a 74 yd edge here but has it around the line. NFC East Div AD's are 17-7 ATS the L3Y & McNabb week takes center stage.

The Dolphins give Brady & Belichick fits (4-1 ATS) & the youth in the Patriots secondary is getting exposed in the 2H of games. Brady got back on track LW vs BUF (252 yds 78%) 3 TD's & they gained an impressive 200 yds (5.3) on the ground. With the AFC East a 3 way battle in 2010 a loss here will be tough to overcome.

WE PICK A TO

Dear Power Sweep Customer:

At Northcoast Sports we value you as a customer and value your business. As you are aware, we offer the September  $5 \star$  as a free bonus for subscribers to the Power Sweep Newsletter. We have always said there is no such thing as a lock and that any game can lose, however, we are still extremely disappointed by the loss of this past  $5 \star$  Selection. Our GAMES OF THE MONTH are still an outstanding 21-9 70% over the last 3 years.

Although this play was not guaranteed we feel, since it was not a winner, you should be able to get an additional bonus. All 2010 Power Sweep subscribers are eligible to choose ONE of the following 4 packages:

**PACKAGE A** - Next 5★ Weekend (October 9th). As you well know, our 5★ Weekend of Late Phone Selections normally sells for \$150 for Saturday and Sunday. If you choose Package A, you will receive the 5★ weekend (Saturday and Sunday's Late Phone Selections on October 9th and 10th) for **JUST \$49**. We will have many people paying \$150 for this weekend, so make sure you mention this letter to receive the next 5★ weekend in October for the extremely low price of \$49!

**PACKAGE B** - We will give you a \$25 credit on a Northcoast Debit Card. If you choose to access the next  $5 \star$  Selection, it will be available on the Debit Card (Extension #6, Button 48) for \$25 on October 9th the day of the next  $5 \star$  after 11:15 am ET. Normally this play is only available for \$75 so this button will not be mentioned on the main menu on the day of the  $5 \star$ . If you opt not to get the  $5 \star$  Selection, the credit is still yours to use on any 900 Line Play. However, the  $5 \star$  will only be available for \$25 on (Extension #6, Button 48 for the NEXT  $5 \star$  Selection (October 9th).

**PACKAGE C** - Take \$10 off your 2011 Power Sweep subscription renewal. This will even apply to the lowest price advertised in October (currently it is \$79)!

**PACKAGE D** - Half off a Weekend of Late Phone Plays.
