# NFL GOM GOES THIS WEEK!!

NEWS AND NOTES - WEEK TWELVE 2011

NEWS AND NOTES - Teams playing with BCS pressure have struggled, like in 2007 when all of the teams that controlled their own destiny lost. Oklahoma \$1\$ had it all in their favor. They were ranked #2 in the BCS, would play in the National Title game if they won their final 2 games and Brandon Weeden had moved to the top of the Heisman polls. They were taking on an lowa \$1\$ team that entered play 0-56-2 vs teams ranked 6 or higher in the AP poll. Paul Rhoads was the DC at Plitt when the Panthers knocked W friginia out of the #2 spot and National Championship game back in that wacky 2007 season with a huge upset as a 4 TD dog and now engineered a 2nd one. At one point, ISU actually had an 38-3FD edge but gave up a 70 vd IR TD and trailed 7-0. For the game ISU had a 33-24 FD edge and it was 24-24 after regulation with ISU winning in the 2OT...Illinois outgained Wisconsin 301-285 but was done in by 4 TO's and ST mistakes. The Badgers 4 TD's came on drives of 2, 30, 44, and 39 yards. Illinois had leads of 14-0 and 17-7 (after a PI wiped out a TD IL kicked a FG) at the half and IL had 15-5 FD and 224-93 yd edge. IL had TO's on 3 of their first four 241 poss setting up 2 UW short TD drives and at the end IL or to the UW29 and was int'd at the 19. Also, with the wind at the back of the punt. ILB PR let the punt sail over his head and it ended up going an extra 25 yds to the 3 yd line for a 74 yd punt. Buffalo socred its most points \$5/92 with 51 vs Akron and had a 497-239 yd edge. It was 30-3 at the half. Munchie Legaux got his first OB start at Cincinnati as Zach Collaros was out. UC was held to a season low 225 yds by Rutgers. The Big East now has 5 teams with just 2 losses on the season and the race for an automatic BCS bowl berth is wide open. RU did have 385 yds offense and a 23-11 FD edge. Georgia cliniched an SEC Title game berth but were very unimpressive vs Kentucky. They did have a 317-165 yd edge but settled for short FGs. In the 14 they settled for 5 FGs, missing 1. In the 24 UGA was int'd in the EZ and fim

ball and drove right down the field and had a FD at the MO11. On 2&6 from the 7 a pass was tipped and init'd at the 4 with :32 left and MO got the fortuitous win.

INJURIES OF NOTE - Oregon St beat Washington for the 7th time in the last 8 meetings. UW was starting Nick Montana at QB as Keith Price was banged up. Montana hit 11-21-79. When Oregon St went up 31-14 Price came off the bench and led an 85/10pl drive and got a 4&9, 20 yd TD pass. OSU finbl'd the kick at their own 17 but Price was init'd at the 1 and the Beavers

went 99/12pl getting a 4&gl, 1 yd TD run with 2:06 left to go up by 17 and Montana came back in. OSU had a 484-315 yd edge.

LETDOWN AND LOOK AHEAD - TCU showed some clear letdown after their upset win over Boise St which basically handed them the MW Title this past week. In fact in the 1H vs Colorado St they were outgained 183-148. TCU did end up recording its 45th victory for its senior class, a school record in a 34-10 win and extended their MW records by winning a 23rd straight league game and 16th straight league game at home. CSU had a first time starting QB in true frosh Garrett Grayson (14-24-228) and CSU finished the game with a 408-372 yd edge with TCU getting a 69 yd IR TD in the 3Q... NC State did indeed blow out CU but they benefitted from a short field the majority of the 1H. NCSt finished with a 398-337 yd edge. Clemson had just clinched the ACC Atlantic and decided to rest Sammy Watkins who was banged up. In the 1H NCSt led 7-3 when CU fmbl'd at their own 6 setting up a 6 yd drive for a 7D, fmbl'd at their own 18 setting up an 11 yd drive for a 21 yd FG. NCSt got a 34 yd PR setting up an 11 yd TD drive to go up 24-3. CU did take over with 2:35 left trailing 37-6 and went 68/8pl getting a 2 yd TD run with 1:22 left... Teams that have unbeaten seasons and National Championship hopes dashed, usually have a letdown spot the next week. Stanford struggled to get past Cal and Boise St did not cover vs San Diego St. BS did benefit from 3 early TO's by SDSt as after an int they went 24/4pl for a TD, SDSt fmbl'd a punt on their 10 setting up a BS TD and SDS fmbl'd the ensuing KO at their own 23 and BS on 38.14 got a 14 yd TD pass to lead 21-0. BS did lead 42-14 at the half. Leading 45-14 BS fumbled at the SDS3. SDS got to midfield and punted but roughing the P gave them a FD and they would get a TD 2pl later to pull within 45-21. SDS got a TD with 6:25 left to make it 45-29 with 4:11 left. The Aztecs went 76/17pl converting on 38.13, 48.14, 388 and with just :05 left in the game, got a 1 yd

TD pass to make it 52-35. BS rec'd the onside kick.

MEANINGLESS GAMES - When Penn St took the field against Ohio St it was basically a meaningless game and the winner of next week's game vs Wisconsin will be the winner of the Big Ten Leaders div whether PSU beat or lost to OSU. The Lions showed great character and pulled out the road win. They led after Stephfon Green ran 39 yds for a TD 1:30 in and led the rest of the way. PSU had won just 2 of their last 10 games in Columbus but both came vs true frosh QB's in Art Schlichter in 1978 and Terrelle Pryor in 2008 and now a 3rd time vs Braxton Miller...

Cont'd on page 2

Continued from Front Page... Tulsa was playing in basically a meaningless game vs UTEP. If they beat Houston next week, they get a spot in the conf champ game. TU showed no look ahead but did only have a 500-443 vd edge. In fact, at the half it was TU 297-263 and they only led 21-15 when they got a 94 vd KR TD with 2:45 left in the half, 29-15. TU got a 37 yd IR TD to go up 50-15 and UTEP did gain 64 of its yards on 11 plays in the final 4:00 after TU had scored a TD to make it 57-28. BACKDOOR/FRONTDOOR COVERS- Texas A&M went to backup QB Showers with 8:00 left in the 3Q as the game vs Kansas was a rout. A&M finished with a 469-197 yd edge. You wouldn't think anything was on the line late in the game but KU took over with 6:52 left trailing 61-0. They would convert on 4&6 for a FD to the 13 and then with just :46 left in the game, got a 15 yd TD run by Sims on 2&12 for a TD which put the game Over the total and also had KU avoid the shutout. 13 and then with just :46 left in the game, got a 15 yd 1D run by Sims on 2&12 for a 1D which put the game Over the total and also had KU avoid the shutout.

MISLEADING FINALS - It was a shocking early score in the Furman/Florida game as FUR jumped out to a 22-7 1Q lead. UF used big passes. In the 1Q FUR had a 196-72 yd edge. UF got 80, 29, 64 yd TD passes and a 77 yd TD run then added 27 and 75 yd IR TD's for a very misleading 54-32 final in which FUR had a 20-19 FD edge... At the half vs Louisville, Conn had a 165-105 yd edge but gave up a 100 yd KR TD to open the game and settled for a 24 yd FG and trailed 14-10. The game was 28-20 when UC rec'd an onside kick at their own 41 with :13 left when they tried the lateral play and UL ret'd a fumbled lateral 36 yds for a TD with no time left on the clock to make what was a 1 score game into a 34-20 final... We're not sure if we should classify Nevada as a Misleading Final or just a brutal loss for the Wolf Pack. In the 1H NV had an amazing 272-43 yd edge. They fumbled at the LT22, were int'd at the LT30 and were SOD at the LT33. NV had a 15-2 FD edge. NV still dominated the 3Q as well going 67/12pl for a 19 yd FG, 59/6pl settling for a 24 yd FG and on their 3rd poss, went 49/9pl for a TD. With 13:01 left, NV had a commanding 20-3 lead that should have been much worse and a 437-118 yd edge. LT got 84, 89 and 92 yd drive on their final 3 poss for the win.

OPTION OFFENSES ARE TO IGHTO DEFEND - Three big plays burt Alabama and we have to wonder why ESS schools even schedule an ECS school which OPTION OFFENSES ARE TOUGH TO DEFEND - Three big plays hurt Alabama and we have to wonder why FBS schools even schedule an FCS school which runs the option as it is very difficult to prep for. Georgia Southern basically had 2 big plays on its triple option offense and a ST play for their 3 TD's. Bama jumped out to a 17-0 lead but GS got an 82 yd run by FB Swope. With :52 left in the half GS had just converted on 4&1 at its own 32 and 5pl later got a 39 yd TD pass. GS also got a 95 yd KR TD and the confounding option had by far the best effort vs Alabama's D all year with 341 yards. Jaybo Shaw is a Georgia Tech transfer and hit 1-5 passes for 39 yds. GS did gain 37 of its yds in the final couple of plays when trailing 45-21. Trent Richardson rushed for 175 yds and had 3 TD's.

#### PLAYS DAILY 7-1700 ) F) R ) D) D 1-347-67

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and dropped 12 spots in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous PRO GOM - Goes This Weekend!! factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Batings. These are Northcoast Sports Plus or Minus Power Batings

#### NOTE: Power Plays - PP

# COLLEGE FOOTBALL NOVEMBER 24TH-NOVEMBER 26TH, 2011

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4\* Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game.
