NEWS AND NOTES - WEEK THIRTEEN 2011

NEWS AND NOTES - Texas A&M dominated the 1Q with Texas not even getting a FD and the Aggies getting the ball at midfield on most of their poss. A&M got a TD and 2 FG's to lead 13-0. The FG's were 49 and 52 yds by Randy Bullock. The game started to change when A&M fmbld a punt at its own 41 and on the next play UT got a 41 yd trick pass from WR Shipley to Irby, 13-7. UT trailed 16-7 at the half but got a 58 yd IR TD then an 81 yd PR but after the PR they settled for a short 23 yd FG, 17-16. Ryan Tannehill had 3 int's and his 3rd set up UT for a 24/6pl drive for a TD and a 24-16 lead. A&M battled back and actually took the lead with 1:48 left but UT QB McCoy ran 25 yds down the middle of the field to the Aggie 23 setting up a 40 yd FG for the win in what figures to be a final game for quite some time in this storied rivalry...E Michigan had an 18-11 FD edge vs Northern Illinois but a couple of big plays allowed the Huskies to escape and advance to the MAC Title game. EM had 1st & gl at the N12 and 8 but they settled for FG's each time on a windy day. Once they passed up a 43 yd FG as they were going into the stiff wind and were SOD on 4&3. NI's big play was a 3&1, 68 yd TD run by Harnish in the 3Q which made it 18-6. Trailing 18-12 EM got to the N132 but a pair of sks forced a dropped pass on 4th down...USF played without starting QB BJ Daniels and Bobby Eveld hit 20-35-210 yds. UL clinched its share of the Big East Championship with the win and snapped a 16 game losing streak in reg ssn games played in the state of FL dating back to 1972. USF took a 17-3 lead on a 1 yd TD run with :35 left in the half and appeared in control but UL got a 54 yd KR and 2pl later an 18 yd TD pass to make it 17-10 at the half. UL trailed 24-20 but took the lead with 9:38 left, 27-24. USF was int'd and UL drove 17 yds for a TD. USF was SOD on 4&4 at its own 34 with 2:59 left...Tulsa and Houston were playing for the CUSA West Title and UH was also playing to keep their BCS bowl bid alive. The Cougars moved to 12-0 for the first time in school history and the game was close at the half with TU having a 226-224 yd edge. Trailing 13-10, TU fmbld at the UH10 with :47 left in the half. UH got 2 big plays in the 3Q. On 4&10 they got a 33 yd TD pass to increase their lead to 20-10 and later on 4&1 got a 38 yd TD pass with 1:23 left in the quarter, 27-16. Case Keenum was pulled after an 8 yd TD pass with 7:16 left and UH added a 14 yd TD pass from bkp QB Turner with 6:18 left...In W Michigan's FHG QB Alex Carder DNP due to injury and Tyler VanTubbergen hit 19-21-252 yds. WM had a mistake-filled game and yet still won 68-19. WM fmbld a punt at their own 49 then after an Akron punt was tkld for a safety and only led 10-2. The Broncos fumbled a 2nd punt at their 46 setting up a UA FG and only led 10-5 but then scored TD's on their next 8 poss to go up 66-5. UA went 80/9pl for a TD then ret'd a fmbld 72 yds for a TD to make it 66-19. WM was also SOD at the UA5 and 12 on their final 2 drives...Arkansas and LSU's last 6 meetings had all been decided by 8 pts or less and Ark jumped out to a 14-0 lead after a 47 yd FR TD but in the first meeting of 2 teams ranked in the Top 3 in Death Valley since 1959, when Billy Cannon got his famous PR vs Ole Miss, Tyrann Mathieu ret'd a punt 92 yds for a TD which tied it at 14. While LSU only had a 201-166 yd edge at the half and led 21-14, they dominated the 2H with a 293-88 yd edge and finished with a 26-11 FD edge, even taking a knee at the AU18 at the end...Pitt had a commanding 217-74 yd edge at the half vs West Virginia but lost RB Zach Brown to injury on their 2nd to last play of the half. Isaac Bennett spelled him in the 3Q before he also went out with injury. Keep in mind, earlier in the year, Pitt had lost their top RB Ray Graham. Without their RB's, the offense stalled in the 2H and was held to just 79 yards. WV made a big rally and went for it on 4&6 at the Pitt24 when a FG would have put them back within 3 but the gamble paid off and they would get a TD 4pl later for their first lead of the game with 6:10 left and Pitt punted with 2:30 left and their final 3pl were 2 sacks and an intentional grounding...Denard Robinson accounted for 5 TD's and Michigan snapped a school record 7 game losing streak to Ohio St. Braxton Miller threw for 235 yards and rushed for 100 and UM may have locked up their first BCS bowl since 2006 as the fans rushed the field afterwards. A key play late kept the Buckeyes in the game when UM appeared to get a TD to go up by 10 but it was overruled by relay as the RB was ruled down at the 1. Robinson's TD on the next play was called back due to a hold and a PF and they settled for a FG and only led by 6 with 1:59 left. OSU only got to their 35 and their final pass was int'd at the UM48 with :39 left. Brady Hoke is the first coach in UM history since 1901 to win 10 games in his first season. OSU will not win the Big Ten Title for the first time since 2004 and they lost 3 str NV games for the first time since 1999...It was Deja Vu all over again for Nevada. Last week vs Louisiana Tech they had a 465-412 yd edge and this week vs Utah St they had a 290-134 yd edge but only led 10-7 at the half. NV lost starting QB Fajardo to an ankle injury late 3Q while leading 10-7. Backup QB Lantrip led 1 TD drive and NV took over at their 27 with 10:26 left. On 4&1 NV got a FD at the Utah St 11 on a Lantrip run but he fmbld and Utah St would get 4 FD's incl 4&1 and 3&10 conv and took a knee...Oklahoma had allowed a school record 616 yards last week vs Baylor but held Iowa St to a season low 245 yards and ISU did not have a drive longer than 35 yards with their only TD coming on a 10 yd drive (after a bad punt). It was ISU's lowest yardage total since last year when they only got 183 being shutout by Oklahoma. Iowa St had not beaten ranked foes in B2B weeks since 1974. Even though it was the home finale for Oklahoma, there were thousands of empty seats and the winds were 30-40 mph which slowed down the OU offense. OU settled for a 20 yd FG, on 2nd & gl from the 1 was int'd in the EZ and settled for 27 and 36 yd FG's in the 1H. OU fmbld at the ISU20, was int'd at the ISU12, settled for a 21 yd FG and was int'd at the ISU20 in the 2H which is why they only won by 20 points...Tennessee blew a chance at a Liberty Bowl bid by losing to Kentucky in their final game. It was UK's first win in the series since 1984 breaking a 26 game losing streak to Tenn. UT had a 15-10 FD edge and a 276-217 yd edge. UK wore black jerseys for the 2nd time this season at the request of its 21 seniors. UT had 3 TO's late which cost them a shot at the win. UT had a 46 yd FG blk'd in the 1H and on 4&4 were SOD at the UK31. In the 2H UT had a 1st & gl at the 8 and went to the Wildcat but fmbld. UK fmbld and it appeared to be a clear recovery for UT but it was not overturned and 3pl later UK got a TD...Another game with late 1H heroics, Michigan St and Northwestern were tied at 3 and NU at the end of a 15 pl drive and at the MSU4 when they fumbled with 5:25 left in the half. MSU went 97/8pl getting a TD with 1:40 left then got a 57 yd PR TD with :34 left in the half and a 3-3 game blew open a 17-3 and MSU never led by less than 7 after that. Trailing by 7, NU did have the ball but punted with 10:22 left and on 3&17, MSU got a pass to Cunningham which he bobbled 3 times but hauled in for a 29 yd TD. MSU was playing with the Big Ten Title game on deck...Kansas and Missouri have a long rivalry, second in games played only to Wisconsin and Minnesota but only 47,059 were on hand at Arrowhead Stadium in what was likely the final of the series on a cold, wet afternoon. KU led 10-3 at the half but fmbld a punt snap on their own 14 at the start of the 3Q and MO went 14 yards for a TD then 93 and 82 yds for TD's and rolled to a 24-10 win and finished with a 357-137 yd edge...MarQueis Gray ran 27 times for 167 yards and set a Minn record for rushing yards by a QB with 966 topping Billy Cockerham's 831 (1999). Illinois actually held an opponent under 100 yards passing for the 5th time this season but in the 1H UM had an amazing 217-18 yd edge and led 20-0 and extended it 27-0 en route to their 27-7 win. Ron Zook is 34-51 in 7 seasons, a winning % that is 11th among the 13 UI coaches who have coached more than one season and was fired the next day after the Illini's 6 game slide...NC State had the 2nd biggest comeback ever in an ACC game as they amazingly trailed 41-14 in the 3Q but rallied for the win and won by 15, 56-41! The key play of the game was a 59 yd IR TD by CJ Brown with 1:00 left. The previous high was when Clemson came back 28 pts down to beat Virginia in '92, 29-28. NCSU turned it over on each of their first 3 poss of the game incl when James Washington fmbld with nobody around him for 5 yards which MD scooped up and ret'd it 66 yards for a TD and a 7-0 lead early...Virginia Tech usually peaks at the end of the year and they had their best game of the season vs Virginia with a 38-0 win and a 410-241 yd edge...Alabama was even more dominating than their 42-14 final score would indicate. The Tide entered the 4Q with a 309-44 yd edge. In fact, after the opening KO of the 3Q, Bama had 221-31 yd edge and 13-1 FD edges but fmbld into the EZ which Auburn fell on for a TD and AUB ret'd the opening KO of the 3Q 83 yds for a TD and Bama at that point only led 24-14. Trent Richardson rushed for 203 yards on 27 carries and also had a TD receiving in the Tide's 42-14 win. Richardson has avg'd 198.4 ypg vs ranked foes (all-purp yds)...Penn St jumped out to a 7-0 lead vs Wisconsin but the Badgers led 28-7 at the half incl a fmbld KR with 2:09 left in the half setting up UW for a TD. PSU then fmbld to start the 3Q and the Badgers got another TD and rolled to a 45-7 win. They did have a 450-223 yd edge...Southern Miss got their first CUSA East Title since 2006 and first 10 win season since 1988. Memphis avoided a shutout when trailing 44-0, SM fmbld into the EZ and UM fell on it for a TD with 6:54 left. While SM had 2 IR TD's in the game, they also fmbld into the EZ for a TB on the last play of the 1H on 1st & gl from the 1... Louisiana got their 7th IR TD of the season which tied an NCAA record which was set by Tennessee in 1971. While UL jumped out to a 7-0 lead at Arizona, AZ did not start QB Foles who was ? coming in but AZ rolled to a 45-37 win with Foles hitting 33-43-352.

Continued from Front Page: LATE SURGES HELP TO BIG WINS - Boise St trailed Wyoming 7-0 with 2:00 left in the half. They got a TD with 1:10 left in the half then forced a punt with :08 left. Kellen Moore threw up a prayer and the ball was deflected at the goal line by a WY DB and fell into the hands of Miller for a 46 yd TD on the final play of the half giving Boise St some momentum into the locker room. WY went 3&out on their first 2 poss and were int'd on their 3 in the 3Q while BSU built a 36-7 lead... LT wrapped up a bid to the Poinsettia Bowl with the win over NMSt giving them the WAC Title. Louisiana Tech led just 9-0 when they got the ball with 4:00 left in the half at their own 4. They went 96/13pl and got a 1 yd TD run with :28 left in the half. NMS opted to not take a knee and instead threw it and LT got a 45 yd IR TD with :07 left to blow it open 23-0. LT did have a 295-178 yd edge at the half and would roll 44-0... FAU got a TD with 3:18 left in the half to tie at 14. UAB was sk'd and fmb'l'd at their own 9 with 1:30 left and FAU got a 28 yd FG to take the lead, 17-14 with :10 left. FAU took that momentum into the 2H and built a 38-28 lead before UAB got a TD with :33 left to pull within 3 but FAU rec'd the onside kick.

THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense **MOVED UP 14 NOTCHES**. In Phil's Power Ratings they **stayed the same**, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & **RAISED** the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & **DID NOT HAVE TO PASS &** when they did they hit 9 of 11 passes, which is **VERY** effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, **THESE RATINGS REFLECT** the true strength of each unit and allow them to have the **most accurate forecast of yards gained and points allowed in the country!** **No other rating system takes into account all the previous factors.** Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

2011 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

2011 TOUGHEST OPPONENT UNIT'S FACED

WHAT ARE THE TOUGHEST OPPONENT RANKINGS? These rankings go far beyond the NCAA's straight statistical ranking of each team. For example last year Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA LY. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have taken on the toughest & easiest schedules last year.

The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game.

PP shows you the balance of both teams with each rushing and passing for over 200 yards. We'll grab the points with Ohio U as the final forecast only has N Ill with a 495-475 yard edge.

OREGON	313	230	47	2.0	✓✓✓✓

This forecast is similar to the teams season average as the Ducks gain 568 ypg at home while UCLA only averages 376 yards on the road. PP is calling for Oregon to finish with a 543-342 yard edge while using a dominant ST advantage to cover the 30 pt spread. The Bruins have lost 8 of 9 ATS vs P10 foes on the road while the Ducks have gone 8-2 ATS laying 17+ at home.

CONNECTICUT	108	170	18	2.7	—
CINCINNATI	127	340	29	3.1	—

Butch Jones not only followed former HC Kelly in position but also in offensive philosophy with a QB friendly offense. This allows a backup QB to step in and be productive as Munchie Legaux did LW with a 2-0 ratio leading the Bearcats to a 30-13 road win. PP likes Cincy and we agree as Conn is getting outgained on the road by an avg of 412-269. The Bearcats also get revenge from a misleading 38-17 loss LY, which knocked them from bowl eligibility, as a -4 TO ratio led to their demise.

SYRACUSE	113	160	13	1.6	—
PITTSBURGH	202	215	31	1.9	✓

It's a battle for bowl eligibility but the 5-6 records are the ONLY thing similar with these two teams. First off the Panthers have covered 4 straight and are 3-0 ATS at home vs the BE while the Orangemen have dropped 4 straight ATS and are 0-4 ATS on the road this season. Pittsburgh's D has stepped it up in helping to ease the offensive attrition and in the L/6 games has allowed under 17 FD's/gm and held each to under their ssn avg (by 55 ypg). PP calls for a dominating 417-273 yard edge this week.

IOWA ST	123	180	14	3.1	—
KANSAS ST	207	160	27	2.3	✓✓

There are a select few HOF caliber coaches that maximize every bit of effort from every player and that is KSt's Bill Snyder. On the season the Wildcats are getting outgained by 62 ypg (ISU only 43 ypg) but all they've done is go 8-2 SU, 9-1 ATS vs FBS foes. ISU deserves credit for pulling upsets as a 14 & 27 pt dog this year but now face a team that has lacked respect all season and won't look past them.

WYOMING	281	140	32	1.4	—
COLORADO ST	244	185	19	3.1	✓

We'll disagree with the PP forecast in this one as recent QB injuries for Col St may have slanted the forecast. In the Cowboy's conf games they've been an underdog 4 of 6 times taking an average of 22 pts and were HF's vs UNLV & N Mex (combined 0-24 away L2Y). They are now in a second of B2B away games off a physical Boise game and are an AF for the 3rd time in the 3Y under Christensen (0-2 SU/ATS failing to cover by 42 til pts). In CSU's L/4 gms they faced AF, TCU, SD St and UNLV but have only been outgained by a total of 4 yards.

UNLV	100	100	7	2.1	—
TCU	255	265	50	2.2	✓✓

It's not very often that PP will back a 40pt HF but that is the call here. Can't really argue as the Horned Frogs have won the L/3 at home in the series by a combined 126-13. Can discount the Rebels horrific road woes as they are now 1-12 ATS (one cover by 1 pt) getting outgained by 330 ypg the L/8 they were an underdog. Against a N Mex squad that beat UNLV TY, TCU won 69-0 finishing with a 515-85 yd edge!!

OKLAHOMA	173	350	32	3.9	—
OKLAHOMA ST	112	420	40	3.0	—

There's good times for a late season bye and there's bad times and OSU unfortunately falls into the second category. Off a BCS busting 27' point upset they have a week to think about what could have been while also dealing with pressure knowing a BCS bowl berth is still on the line. OU has had several games to replace inj'd skill players and are flying under the radar. The yardage is close with OSU having a 532-523 yd edge so we'll pass. Sooners have been a conf AD just once in the L5Y beating OSU LY.

BAYLOR	134	300	30	2.7	—

There's no line at press time with QB Griffin knocked out LW. If RG3 is a go the Bears should be about a FG fav making the Longhorns worth a look. PP is calling for UT to play BU even on the scoreboard. The Longhorns have made this a revengeful season after LY's 5 home losses MATCHED their total from the previous 11 years. They've already knocked off UCLA (covered by 32'), Iowa St (by 14) and Tex A&M (by 10) and only failed vs a #6 Ok St who they out'FD. Big ST edge for the Longhorns.

IDAHO	97	168	16	2.5	✓✓
NEVADA	259	293	33	2.4	—

It's not very often that a forecast calls for a team to total more rush yards and pass yards than their opponent has combined. The PP projection has Nevada doubling Idaho with a 552-265 edge. LY the WolfPack actually topped that finishing their blowout with an 844-339 mark. Expect a ravaged WolfPack as Nevada came into this season 21-7 as a HF and has failed to cover 3 straight in that role. Oh yeah, by the way UN has lost only 2 home games in 3Y incl their last game. After the previous home loss they were a 6pt fav in their next home game and won 63-28.

NEW MEXICO	17	130	4	3.0	—
BOISE ST	248	325	57	1.4	✓✓✓✓✓

PP does have New Mex scoring but that is clearly due to the decreased Boise D. LY the Bronco's held 6 opp's to UNDER a TD and allowed only 11 ppg in conf play compared to ZERO teams under a TD TY and 24 ppg in MWC action. The forecast calls for BSU to have a 573-147 yard edge and the Lobo's are getting outgained by an avg of 539-219 on the road TY. Have to feel that the disappointed Broncos D will be shooting for their first shutout TY keeping a 5 year streak with at least one shutout alive.

BYU	190	230	35	2.8	—
HAWAII	85	280	19	2.9	✓

Polar opposites as BYU comes in relaxed with a bowl bid tied up having covered 5 straight with 2 byes in the past 4 weeks. Hawaii meanwhile must win for a bowl, must play a backup QB, will be playing an 8th straight week and has failed to cover 6 of their last 7. Although the yards are close PP is calling for a 16 pt Cougars win. BYU has covered 6 of their L/7 road games and the ONLY ATS loss was an outright win in SEC country. No one plays better D down the stretch as HC Mendenhall is his own DC and LY allowed 247 ypg the L/6 and TY is allowing 256 ypg the L/4.

NEW MEXICO ST	136	280	25	1.9	—

We'll pass as this forecast which slants Ut St is easily explainable. New Mex St had a great offensive surge avg 464 ypg in games 5-10. Then came an inj to starting QB Christian and the Aggies avg'd only 254 yds on the road against BYU and LT both of whom we rank in our top 40 D's. If NMSt gets their QB back there would be value in the HD vs a Utah St squad that is 0-2 ATS TY as an AF. LTH USU was a 10' pt AF and lost outright 20-17 and LY they were an 18pt HF & failed to cover getting outgained by 50 yards.

Could this be Fresno HC Hill's last game? PP is calling for the Aztec's to have a 451-411 yd edge but remember this newsletter can not forecast emotion especially if a team is rallying for a departed HC. The Bulldogs D has shown some life the L2W allowing 365 ypg after giving up 500+ 3 straight games. The dog has covered 5 straight Fresno games but the dog also covered 5 straight SDSt games prior to the Aztec's getting a 1/2 pt home cover vs UNLV. We'll pass for now.

Accolades to Hugh Freeze who in his first season took an Ark St team that has NOT HAD A WINNING RECORD S'/1995 to a 9-2 start (only 2 L's to Va Tech & Ill) while delighting alumni to an 9-2 ATS record. ASU is off a bye to focus on trying to beat Troy for the first time in 4Y (L/4 losses by 16 ppg). While the DD role is new vs the Trojans, ASU has been one the last 4 games covering 3 of them (outgained all 4 by 181 ypg). Troy's demise is still tough to explain as they've been outgained by 218 ypg in their L/5 vs teams not named FAU.

In the topsy turvey league they call the Sun Belt, M Tenn goes from B2B bowl appearances to 5 straight conf losses both SU & ATS. We can't play against the Cougars at home and PP agree's. The forecast is for Houston to finish with a 592-393 yd edge and win the CUSA as well as grab a BCS bid. Record setting QB Keenum is now 19-0 SU & 16-2 ATS as a str at home and the forecast is for a great final home game. Southern Miss is a different team at home (+232 ypg) vs away (+31 ypg) and the Cougars have not been slowed by anyone having avg'd 57 ppg the L/9.

PP's is forecasting LSU to win by 2 TD's but check out the yards. LSU is projected with a 315-270 edge which translates to about a 3 pt win. That mirrors their entire season as the Tigers are only outgaining foes by 70 ypg away from home (translates to 5 ppg) but have escaped with an avg win of 33-9. The Bulldogs have won 10 straight (8-2 ATS) and it's certainly a team we're not going to bet against. We'll pass on this one.

A quick overview matched the Wisky offense vs the Sparty defense. PP forecasts the Badgers with a 395-305 edge and a non-covering 8 pt win. When comparing the numbers away from home be careful as Wisconsin's only BCS road game against a winning team was a loss to this Mich St squad. MSU meanwhile has faced ND, Nebraska and Iowa. Upsetting a team twice in a 6 week span is very difficult but Mich St has a defense that can keep the game within reach.

PRO FOOTBALL DECEMBER 1ST-5TH, 2011

Power Plays is based upon statistical numbers & rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offensive ranking vs visitor defensive ranking) over each teams last 4 games.

PHILADELPHIA	147	243	23	2.0	#24
SEATTLE	93	220	19	2.2	#18

(PHI #7 vs SEA #18, SEA #23 vs PHI #27) - PHI put up 466 yds vs NE LW but lost by 18 due to redzone problems settling for 1 FG, 1 SOD with 1 of their 2 TD's coming in garbage time. SEA was upset at home LW as Jackson's pectoral injury flared up limiting him to 144 yds (47%) w/a 2-1 mark. There is no line as Vick (ribs) could return so No Play.

TENNESSEE	108	205	26	1.9	#12
BUFFALO	125	258	23	2.1	#21

(TEN #17 vs BUF #16, BUF #28 vs TEN #14) - TEN held off TB LW in sloppy field conditions & the offense got a huge boost with Johnson rushing for 190 yds (8.3). Despite a slew of injuries the Bills were able to make it tough on the Jets due sloppy play by Sanchez & the Jets special teams. PP calls for the Bills to have a 70 yd edge but we think their injuries catch up to them here. The early forecast calls for 15+ mph winds in a venue notorious for bad conditions which keeps this higher.

3★ TITANS 26 (+) BILLS 23

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
KANSAS CITY	105	173	9	3.0	#19
CHICAGO	170	148	23	1.5	#1

(KC #26 vs CHI #23, CHI #15 vs KC #12) - This is a good situation for the Bears getting KC off B2B prime-time games making his 3rd start in a venue that usually has bad field conditions this time of year. Hanie looked like a career backup in his 1st road start as 3 Ints killed their momentum & the Raiders minimized Hester in the game. Being at home will be huge for Hanie vs the #32 pass rush, the Bears defense vs a suspect KC OL & Hester should have a big impact. The large line keeps this from being higher rated.

2★ BEARS 23 CHIEFS 9

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
OAKLAND	120	193	14	0.9	#9
MIAMI	138	208	21	1.4	#7

(OAK #5 vs MIA #5, MIA #22 vs OAK #26) - MIA has a huge situational edge at home w/ extra rest vs an OAK team thin in the secondary coming cross country. Despite the record Sparano hasn't lost the locker-room as they've won 3 of their L6 games with their losses by 3 or less. Both teams are evenly matched here statistically with PP giving MIA a 33 yd edge which isn't enough to back the forecast so No Play.

CINCINNATI	83	210	17	1.7	#11
PITTSBURGH	135	243	27	1.2	#27

(CIN #8 vs PIT #3, PIT #12 vs CIN #11) - PIT wasn't very impressive off the bye on SNF vs KC with just 13 pts despite forcing 4 KC TO's. Roethlisberger (brkn thumb) only had 193 yds passing but PIT was balanced in the play calling (31 pass/24 called runs) & dominated the clock. CIN struggled at home vs CLE & travel to a venue they have dropped 3 of the L4 by 14, 13 & 16 pts. PP gives PIT an 84 yd edge (3rd largest TW) but the status of Polamalu (head) keeps this from being stronger.

2★ STEELERS 27 BENGALS 17

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
BALTIMORE	117	200	22	1.3	#16
CLEVELAND	96	208	13	1.7	#26

(BAL #19 vs CLE #17, CLE #31 vs BAL #20) - BAL does have the situational & talent edges here but they have played down to their foes TY. Hillis gave the CLE offense a toughness boost LW & the defense played CIN very tough overall. PP only gives BAL a 14 yd edge vs a team that hasn't quit despite some tough breaks with a forecast right around the line so No Play.

NY JETS	122	158	17	1.0	#3
WASHINGTON	76	235	16	2.2	#17

(NYJ #16 vs WAS #7, WAS #21 vs NYJ #8) - WAS got a much needed confidence boosting win at SEA LW as Grossman hit for 300 yds and WR Moss (4 rec 7.3) had no issues w/ his brkn hand. Sanchez didn't play as well as his 4 TD's suggests hitting for 180 yds overall (49%) and keeping the offense out of rhythm. PP calls for the Redskins to stay within the number in a lower scoring game with a mildly surprising slight yard edge (+32) vs a team that is 1-4 ATS on the road TY.

1★ REDSKINS/JETS: UNDER

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
ATLANTA	90	140	15	1.7	#22
HOUSTON	125	225	20	2.1	#14

(ATL #1 vs HOU #1, HOU #14 vs ATL #2) - The Texans motto this year has been "have a plan, have a backup plan & be prepared for that plan not to work" with the injuries to key players TY. They held off JAX LW despite only earning 2 FD & 47 yds LW due to some elite defensive play. Now they have to host an ATL team that is starting to find its footing after a slow start on the year. PP leans with the Texans but their QB situation isn't very promising so No Play.

NO PLAY: TEXANS 20 FALCONS 15

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
CAROLINA	165	205	20	2.2	#32
TAMPA BAY	163	248	28	1.3	#8

(CAR #8 vs TB #32, TB #18 vs CAR #29) - CAR is off their 1st road win since late Dec 2009 vs the Colts LW but gave up 323 yds. TB is off a tough loss to TEN in bad field conditions. With their playoff chances very slim they will have a very light home crowd for a team that is 6-19 ATS at home. PP calls for TB to win by 8 with a manageable line but the stat edges & a slim yardage edge (+41) keep this from being higher.

1★ BUCS 28 PANTHERS 20

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
INDIANAPOLIS	61	223	3	2.1	#31
NEW ENGLAND	159	353	42	0.0	#10

(IND #30 vs NE #28, NE #3 vs IND #19) - All 4 21 pt favorites since 1989 have failed to cover (25-13 avg score) with NE owning 3 losses in 2007. IND is the worst team statistically since the 2005 49ers finished #32 & #32. Its no surprise PP calls for a win this big with a 229 yd edge but with NE's secondary injuries & Shanahan on deck they Patriots may not have alot of interest here so No Play.

NO PLAY: PATRIOTS 42 COLTS 3

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
DENVER	148	150	22	0.6	#6
MINNESOTA	139	200	20	1.3	#23

(DEN #20 vs MIN #24, MIN #27 vs DEN #13) - DEN is 5-1 ATS w/ Tebow right now as they are not turning the ball over & are playing great defense with solid spec tms. MIN missed Peterson (ankle sprain) LW & Ponder had a tough time (186 yds 68) with his only TD set up by an ATL spec teams blunder. With Peterson being unknown this is a No Play.

NO PLAY: BRONCOS 22 VIKINGS 20

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
ST LOUIS	77	170	5	1.9	#30
SAN FRANCISCO	181	114	24	1.4	#2

(STL #29 vs SF #6, SF #25 vs STL #9) - SF has extra rest to absorb their physical manhandling vs a premier team in a big spot. They are 14-1-1 ATS at home w/ Smith at the helm & are getting a STL team badly depleted by injuries running a system they aren't suited for. PP only gives SF a 48 yd edge which keeps this from being higher with a large line keeping this from being stronger but the Total is quite attractive also.

ARIZONA	128	233	21	2.5	#5

(DAL #6 vs ARZ #21, ARZ #24 vs DAL #15) - DAL fans travel very well here & ARZ hinted after their win vs STL that they may go back to Kolb here as the games on grass. DAL has a big edge with their #7 pass rush vs an ARZ team that is 31st in sks allowed. Romo is also getting into a groove now that he has a healthy RB unit. With no firm status on the ARZ QB situation though this is a No Play.

NY GIANTS	102	310	20	2.4	#25

(GB #10 vs NYG #22, NYG #13 vs GB #31) - The Giants are off LW's MNF game vs NO & those results aren't factored in. They do have the experience of knowing they can knock off an undefeated team & are more disciplined than DET who held Rodgers to 65 yds (56%) w/a TD set up by penalties LW. No MNF means no line vs a team with extra rest so No Play.

(DET #2 vs NO #25, NO #4 vs DET #10) - DET is off their 8th straight Thanksgiving loss & are expected to be without Suh (susp) here. NO is off LW's MNF game vs the Giants & without those results or a line this is a No Play. **Get this play on the Northcoast Debit Card System for only \$9 after 11:00 am ET on Sunday. (SD #11 vs JAX #4, JAX #32 vs SD #30) - The Chargers have lost 6 straight due to OL injuries & a career worst season by Rivers (16-17 ratio). JAX was forced to bench Gabbert for his own protection in the 4Q LW after 6 sks & an Int. Both coaches need this game as they are on the hot seat & JAX did upset BAL on MNF earlier TY. **We are offering a MONEY BACK PLUS Guarantee on MNM through the Northcoast Debit Card System - take advantage on Monday night after 3:00 pm ET!
