## Who Faced the Toughest Schedule in 2011?

What makes our Toughest Opponents Faced rankings far superior to the NCAA method is that ours takes into account 9 sets of power ratings, combines them and factors in every team's schedule this year. We did this not only for the bowl teams, but for all the NCAA teams & found out which teams played the toughest schedules this year. UCLA ranked #30 in the NCAA rankings with an opp W/L % of 55.1% playing 7 gms vs teams with winning records but played our #1 toughest schedule including games against #4 Stanford, #5 USC & #6 Oregon. Per the NCAA, Wyoming faced the #62 toughest schedule with an opp W/L % of 50.4% facing 6 teams with winning records but took on our #98 schedule facing 2 FBS opp (Weber St & Texas St). UCLA had the toughest slate among bowl teams (finished 6-7) and Ohio had the easiest. The 2011 bowl teams are in **boldface**.

**SPECIAL OFFER:** We know that many of our Power Plays subscribers are self-handicappers and we want you to be the most informed player on the block! To help you along, we are offering the **Double Bowl Issue of Power Sweep** for just \$15 (add \$5 if you'd like priority shipping) to all 2011/2012 Plays subscribers. What's different between the Sweep and Plays? The Double Bowl Issue of Power Sweep is 32 action-packed pages with half-page writeups on all 35 bowls. While you'll see the same checklist in both, Power Sweep expands the writeups to include emotion, bowl experience, talent matchups, momentum, special teams, coaching, etc. While we use the Power Plays numbers to analyze our Power Sweep forecasts and will never change a side, the ratings may vary from newletter to newsletter as each uses different factors to handicap (Power Plays is purely statistical). We want you to have both issues in your hand for this bowl season!! Call us today, 1-800-654-3448 and we'll mail you a copy and also give you guest access so you can download your favorite bowl games at www.ncsports.com before your issue arrives in the mail. Obviously this newsletter is based upon statistical numbers & rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the CI teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home, home offensive ranking vs visitor defensive ranking). SI

(JAX #27 vs ATL #14, ATL #8 vs JAX #11) - JAX is off their 1st win for interim HC Turner where they scored more points vs TB (41) than in their previous 3 combined (37). Falcons HC Smith used to be the DC for JAX prior to ATL & he's only 1-2 ATS as a DD favorite. That combined with the fact that they have NO on MNF next makes this a No Play until we see how they practice this week. NO PLAY: FALCONS 26 JAGUARS 10

(DAL #11 vs TB #22, TB #18 vs DAL #25) - Both teams are off bad losses with DAL giving up 37 pts & 500 yds at home to the Giants on SNF. TB gave up 41 pts to JAX thanks to a whopping 7 TO's which is equal to how many games Morris has lost in a row. DAL has gone from leading the NFC East to the #8 seed & lost rookie stud RB Murray (897 yds 5.5) for the year. We need to see the state of mind for both teams this week so No Play.

(WAS #7 vs NYG #32, NYG #2 vs WAS #16) - The Giants earned a huge win with Eli putting the team on his shoulders like he has most of the year and leading them to 37 pts & 500 yds on the road vs DAL. NFC East teams off a SU win as a DIV dog are just 3-8 ATS vs a div foe though since 2003 and WAS has covered 3 of 4 despite their injuries on the OL. PP has this right at the line though the Giants have the 2nd largest yard edge of the week (+113). We'll pass on the side but put a small play on the total (807 yds 3rd biggest TW) here.

(GB #6 vs KC #7, KC #31 vs GB #29) - After being held to 10 or less for 6 straight games the Chiefs released Todd Haley as HC. DC Crennel who is widely respected will take over as interim HC vs a GB team that can clinch the #1 seed with a win here. GB lost true #1 WR Jennings (MCL) until the playoffs & there isn't much value with them anymore. This is a No Play due to the coaching change with GB being close to the line anyways.

NO is off B2B primetime games with a goal line stand at the end to stop TEN with Locker. NO had a 15:06 TOP edge going 11 for 19 on 3rd Dns while holding TEN to 1 for 10. They have a big sked edge at home vs a SEA team off its 1st MNF home game since mid-2007. SEA is down 3 OL from just 3 Wks ago & CHI is only allowing 80 ypg rush (3.5) the L8. We won a 4.5★ NFL Playoff GOY on CHI LY vs SEA who were coming off a big **PITTSBU** home win & while there is no line for the side the total makes a late for such as the former is a side the total makes a late for the side the side the side the total makes a late for the side ome win & while there is no line for the side the total makes a lot of sense here.

(CAR #5 vs HOU #6, HOU #15 vs CAR #24) - HOU's defense came up huge in the 2H LW holding CIN to 6 Fb's & 81 yds. Yates led the Texans on TD drives of 83 & 80 yds in the final 11 min as the Tex-ans have their 1st AFC South title. With 4 teams tied at 10-3 in the AFC the playoffs are already here and this is CAR's 4th road game in 5 Wks after they collapsed in the 2H vs ATL. HOU's +105 yds is the 3rd largest TW (HOU is only allowing 79 ypg rush 3.8 at home TY) with the point margin to back it up.

IND only had 91 yds prior to their final drive when BAL gave up the backdoor cover. They are 1-5 ATS at home TY & facing a CIN team that is 8th in the playoff seedings right now. CIN had a 13 pt lead at the half vs a much healthier & more talented HOU team LW. OAK was roasted by GB LW with 5 TO's flipped to 20 pts as the entire team was worn down other and the area of the team of (DET entering the game.
