TOTAL OF TEN 4*'s OR HIGHER THIS WEEK! NFL KICKOFF WEEKEND IS HERE!

NEWS AND NOTES - WEEK TWO 2012

NEWS AND NOTES - Texas St was +14,300 on the ML vs Houston meaning 143-1 odds of winning the football game. UH had a new HC and TSU dominated and there is nothing fluky about it as they led 14-3 and 27-10 at the half in their 30-13 win. They finished with a 443-326 yd edge. FRONTDOOR COVERS - Texas Tech dominated NWSt with a 37-6 FD and 500-84 yd edges yet they were laying 37' and only led 27-6 in the 4Q. They needed a td with 2:17 left to get ahead of the spread, 44-6. Bkp QB Michael Brewer hit 10-13-122 and guided TT to 17 points in the 4Q...It was a tough beat if you had the Under 51' in the Minn/UNLV game. The game was tied 13-13 with UNLV getting a FG with 2:30 left to send the game to OT. In the 3OT's, the two (which had combined for 26 points in regulation) combined for 31 points in the OT's to put the game Over the Total at 30-27!

NÖ FRONŤDOOR COVERS - There were a couple games this past weekend were one team had a chance to cover in the final minutes and didn't get it done deep in the other team's territory. Utah was -42 and had a FD at the NColo 17 but gained 7 yds on their final 3 runs getting down to the 10 and only won by 41. Utah did have a 414-114 yd edge in their shutout win and a missed 27 yd FG on the final play of the half was another key play...Michigan St dominated Boise St with a 25-14 FD and 461-206 yd edge. Generally, when a team has that kind of yardage edge, it amounts to a 3 td+ win. Unfortunately, for MSU they gave up a 43 yd IR TD and missed 2 FG's during the game. At the end, MSU had a FD at the BS14, a FG would have given them a push, a RB running into the EZ for a td would have given them a win, but the worst case scenario happened as they got a FD at the 4 and then just took a knee, only

winning the game by 4, laying 6'...USC led Hawaii 35-0 in the 2Q and led 49-10 (-42). They had a FD at the UH24 but were stopped 2 yds short of a FD at the 16 with 2:11 left and would only win by 39. Coach Kiffin had a little something to do with that as well as usual, he opted to go for a 2 pt conv three times, failing on each and those missed 3 pts cost a push.

MISLEADING FINALS - Temple appears to have blown out Villanova last week 41-10 but VU actually had a 365-362 yd edge and 18-15 FD edge. VU went on an 85/12pl drive and settled for a 21 yd FG, gave up a 58 yd IR td, another fmbl set up a 24 yd td, they were SOD at the TU29 and ended the game inside the Temple 5.

LATE 1H SCORES = BIG 2H's - Brent Hundley's first touch as a UCLA QB was a 72 yd td run as UCLA piled up 651 yards vs Rice in the opener. RB Jonathan Franklin became the first player in LA history to have a least 2 rushes with 72 yards in a game with 74 and 78 yard td runs. UCLA did only lead 29-24 when they got a FR TD with :17 left in the half to go up 25-24.

WEEK TWO OPENING COLLEGE LINES AND MATCHUP HI

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and dropped 12 spots in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable we

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units remained rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, vards are not everything.

the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

WHAT ARE THE TOUGHEST OPPONENT RANKINGS? These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in 2010 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA LY. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules fast year.

NOTE: Power Plays - PP

COLLEGE FOOTBALL Sep 6thTH-Sep 8thRD

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4* Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections. TUUDODAY O - -- t - -- Oth

PITTSBURGH	198	203	27	2.0	-
CINCINNATI	148	240	30	2.7	-

Early Big East matchup which has seen the road tm win 3 straight outright. Yards are close with Pitt projected with a 401-388 yard edge but Cincy forecasted with a 3 pt win. This will be our Thursday Night Marquee available gameday after 3:00 pm ET on your Northcoast Debit Card for \$9.

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
UTAH	170	209	29	1.5	VVV
UTAH ST	182	174	19	2.8	-

In-state rivalry resumes after a 2 yr hiatus and after having played 66 consecutive seasons from '44 to '09. PP is calling for the Utes to win by 10 pts but to finish with only a 379-356 yd edge. We'll continue to look this game over and have it available as our Friday Night Marquee on the Northcoast Debit Card after 3:00 pm ET on gameday or get it with your Exec Weekend!

PENN ST	109	193	15	1.9	~
VIRGINIA	150	287	25	2.0	-

While emotions could be part to blame in PSU's loss LW, the truth is they were outgained 529-352 to Ohio. UVA last hosted a non-conf BCS tm in 2009 and that was B10's Indiana (UVA -7, 47-7).

INDIANA	159	238	29	1.7	-
UMASS	164	209	24	3.5	VV

IU has only been an AF 6 times in 11Y going 1-4-1 but the last 4 times they won their ssn opener, they covered the following wk. Check out UM's numbers from LW vs Conn (0 pt, 3 FD's, 59 yds).

AIR FORCE	230	41	19	1.9	~
MICHIGAN	294	310	45	2.8	-

PP is invaluable with its projected box scores but we often write that the other factors are incl. This is one of those spots with Mich prepping all Aug for Nat'l Champ Bama and now facing the option.

How can you not play OU after they outgained Penn St 529-352? The answer is LETDOWN! OU beat the Aggies by 20 pts LY laying 6' and we don't feel they'll be focused for a 3 TD win this wk. NO PLAY: OHIO 40 NEW MEXICO ST 20

AAPH IZ I I I				1 1 2 7 7	

With Kentucky having played Sun night these stats may be skewed a bit. The forecast is for the Wildcats to only have a 288-218 yd edge. With no line at press-time we'll pass.

NO PLÁY: KENTUCKY 21 KENT ST 15

UCF travels to Ohio for a 2nd straight game and while you KNOW they were looking ahead to OSU, they still handled being a 24 pt AF beating Akron 56-14. The pts show a slight edge to the Knights but we'll watch and not bet into Urban Meyer's 18-2 ATS record vs non-conf at home.

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers.

NO PLAY: STEELERS 25 BRONCOS 23

MONDAY, SEPTEMBER 10th

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
CINCINNATI	36	230	19	2.5	#8
BALTIMORE	109	317	26	0.0	#10

BAL is just 3-7-1 ATS vs CIN who had a 483-373 yd edge here but lost 31-24 (+7) LY. BAL has to cope with not having Def MVP Suggs but CIN lost its #1 Ctr & LG in preseason. PP has this right around the line so No Play though.

NO PLAY: RAVENS 26 BENGALS 19

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
SAN DIEGO	82	257	27	1.0	#12
OAKLAND	122	262	26	0.5	#9

SD revamped its WR unit after losing WR Jackson to TB in FA & will be without RB Mathews (collarbone) & LT Gaither as well. OAK (5-1 ATS vs SD) purged a lot of players due to cap reasons & Dennis Allen takes over as HC after just 1 year as DEN's DC. PP has this right at the line & we want to see the state of SD's OL in practice so No Play.

NO PLAY: CHARGÉRS 27 RAIDERS 26

With two games being played on Monday Night this week - we will choose the strongest play and release it as our very special MONEY BACK PLUS GUARANTEE on the Northcoast Debit Card System. Take advantage on Monday Night after 3:00 pm ET! Use your Northcoast Debit Card and pay \$30 - if the game fails to cover - we'll credit \$40 BACK to your Northcoast Debit Card!
