Revenge is an often overused term but for the PPH Big Dog Plays!...Memphis al-Maryland was playing with legitimate revenge vs Temple. The previous yr they took the Owls lightly and were manhandled at the line in a 31 pt shutout loss at home. This time it was MD that had the 19-9 FD edge despite being a large dog and finished with a 334-230 yd edge. It was almost yet another blown lead for Coach Edsall at Maryland. The Terps appeared completely in control leading 26-3 at the half with a 180-34 yd edge. The momentum turned when MD fmbl the opening 3Q play and TU got a td.TU had all the momentum in the world when they got a td with 7:04 left to pull within 29-27 but MD went on a surprising 75/11pl drive getting 3 crucial FD's and a td with 2:51 left to ice it. MD finished at the TU25 taking a knee and was yet another outright winner

most pulled the big upset vs Ark St. In fact, Memphis led the majority of the gm. They key drive happened when Memphis started at their own 16 and went on a 6:30 drive going 77/13pl but leading 28-27, missed a 25 yd FG with 9:10 left. ASU went 80/9pl and got a td and missed the 2 pt conv to lead 33-28. Memphis punted and ASU was able to get 3 FD's punting with :11 left and holding on for the 5 pt win.

UPSETS: There were 4 more FCS upsets this past week. Illinois St had a great rush D and matched up well vs E Mich's power rush attack. There was nothing fluky about ISU's win as they had 371-248 yd and 21-11 FD edges. EM did lead 14-10 at half with a 172-148 yd edge. ISU went 67/6pl and 52/7pl on the first 2 poss of the 3Q to go up 24-14. ISU got a 20 yd IR with

5:37 left and went 30/10pl for a td with 1:08 left to clinch it...N Dakota St moved to 6-3 vs FBS schools s/'06. There was nothing fluky about their 22-7 win over Colo St. They had 21-11 FD and 366-243 yd edges. CSU gained 65 of their 243 yds on their last 2 drives...While not an FCS upset, Utah St had not beaten Utah since 1997. They had a 380-325 yd edge vs Utah and were winning when Utah QB Wynn with an injury. Backup QB Jon Hays hit 12-26-154 but looked like an improved QB this year. USU blocked a punt for a td in the 1Q and led 13-3 at half with a 148-92 yd edge. Utah got a td with 3:19 left to tie then missed a 52 yd FG on the final play of regulation. In OT they had a 3&gl, 6 yd td pass called back on offensive pass interference and on 4&gl from the 17 they didn't call a potential defensive pass interference and USU won by 7.

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer

rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and dropped 12 spots in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards

passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Hatings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings. RAISED the Wildcats in the pass defense ratings. In our ratings the two units remained rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes which is VEDV effective. While Networks passed and to the patical ratings are the pass patience reflected the TPLITTING.

of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of

2012 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather. Indivines. Home Field Edges. and successful Unbalanced Attacks. Redular rankings based below on numbers DO NOT take into account these factors.

2012 TOUGHEST OPPONENT UNIT'S FACED

WHAT ARE THE TOUGHEST OPPONENT RANKINGS? These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in 2010 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA LY. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparilies. These are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules last year. SCUBING

NOTE: Power Plays - PP COLLEGE FOOTBALL THURSDAY 13TH-SATURDAY 15TH

Welcome to this week's issue of Power Plays. This Newsletter consists of forecasts tfrom a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. If the Power Plays rating is strong enough to be a 4* Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections.

PRO FOOTBALL SEPTEMBER 16TH, 2012

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers here are based upon how they finished last season with adjustments made due to personnel changes. Preseason statistics are not included in any of the projections as we do not feel they would accurately adjust the numbers.

OAKLAND	88	254	24	0.0	#32
MIAMI	82	232	20	1.4	#4

MIA only had 1 drive over 50 yds LW getting SOD at the HOU 9 in a 4★ winner here LW. They now have a huge edge vs another rookie HC coming cross country off a MNF game vs SD at home. We need to see how QB Palmer plays in the new system as well as OAK's revamped secondary first so No Play.

CINCINNATI	97	288	25	1.3	#22	

CIN is off LW's MNF game vs BAL & those results are not factored in here. CLE's defense did play well keeping Vick off balance but the inexperience of the offense was clear (Weeden 5.1 QBR. Richardson 39 yds 2.1 rushing). CIN is 1-7-1 ATS as a fav of 6 or more & have their fair share of inj's on the OL so we'll call for a No Play & await the MNF results.

JAX went to OT vs MIN LW & come home disappointed. They now face a Texans team that forced TO's on 4 straight drives by MIA & then SOD'd them in B2B drives inside their 10. PP has this right at the line with no difference in yardage so this is a No Play.

SEA was in position to pull out a win vs ARZ but rookie QB Wilson threw 3 straight incompletions in the final :30 to lose. They return home to the 12th man (18-8-1 ATS) vs a DAL team that got a huge confidence boosting win vs NYG. DAL's long flight up is mitigated by the extra rest & they have 2 HG's & a bye after this. PP has this right around the line though so this is a No Play.

Both teams are headed by top tier HC's that are rebuilding teams with promising QB's. WAS pulled the road. The public will be quick to jump on the WAS bandwagon & PP gives them a 124 yd edge but leans with STL for a small play.

The Jets take a step up after shredding the Bills last week but they get PIT at the right time in close and we agree but the fact that the Steelers are 6-0 ATS with a 30-6 average score at home off a SU loss keeps this from being stronger.

SD is off LW's MNF opener vs OAK & those results are not factored in here. TEN was beat up LW despite the rebuild the Colts still have WR Wayne (135 yds 15.0) to challenge MIN's DB's. PP calls vs NE as Locker (non-throwing shoulder) was KO'd of the game as was MLB McCarthy (ankle). TEN expects WR Britt (susp) back for an offense that had 3 int & 2 TO's (77 yds) in a 5 drive span. SD has a much improved defense but we want to see how their beat-up OL fares on MNF so No Play.

SF is off a convincing win vs GB on the road while DET needed a 4QTR comeback to beat STL oriented team & were held to just 10 yds vs TB. PP sides with the HD here as NO lost the momentum at home. SF beat DET 25-19 as a 4.5 pt AD LY despite 15 penalties & 2 TO's. This promises to be going forward LW, their defensive holes are on film, NO is a slower team on grass & despite a lack another hard-hitting matchup between a pair of teams that resurrected themselves in 2011. Get the of depth they are much healthier on defense than LY.

Peyton Manning got off to a fine start in DEN LW wearing out the PIT defense with a no-huddle attack. QB Ryan looked like a natural fit in OC Koetter's new offense taking advantage of a depleted KC defense. Manning gets another chance to show he's back to normal on national TV while the
