NC State was -30' and led 31-0 over South Alabama. NCSt had missed a 39 yd FG with 10:12 left and had led 28-0 at half but put their offense away as they had 255 yards in the 1H and just 149 in the 2H. SA got an 8 yd td pass with 5:20 left for the backdoor cover...Georgia was -41' vs Florida Atlantic. They led 56-14 in the 4Q but FAU got a 42 yd IR td with 10:11 left to get under ATS, 56-20 and UGA despite piling up a school record 713 yds, did not get the cover...LA Tech led 56-30 when Rice took over with 3:40 left. On 4&8 Rice got a 14 yd td pass with 1:32 left to get under the spread as LT only won by 19 laying 21...W Virginia was -35 vs James Madison. They scored td's on their first 4 poss to go up 28-0 and appeared on their way to a rout. They led 42-5 when JMU took over with 5:40 left and JMU converted on 4&6 and then capped their 62/12pl drive with a td with :49 left for the backdoor cover... Wyoming was without

starting QB Brett Smith and Colby Kirkegaard hit 15-23-123. Cal Poly, which went to the option scored on their first couple of poss. Deonte Williams rushed for 187 and he had a 65 yard TD run on CP's first poss and a 74 yd run down to the 5 on the 2nd and CP led 14-0 with 9:53 left in the 1Q. WY battled back to lead 15-14 at the half but CP got a 40 yd drive for a td in the 3Q then a 51 yd FG with 9:49 left. WY got a td with 7:34 left but punted with 3:58 left and took over with 1:46 left at their own 25 and Kirkegaard was int'd at their own 37... Virginia Tech had won 13 str road games, longest standing streak in the country but Pitt ended that. Tino Sunseri hit 19-28-283 vs what was thought to be one of Bud Foster's best D's yet. Pitt had 27-14 FD and 537-324 yd edges and they have a 2-headed monster at TB as Ray Graham rushed for 94 yds on 24 carries and true frosh Rushel Shell added 157 on 23 carries with the 2 chipping in another 32 2012 COLLEGE STANDINGS

# NEWS AND NOTES

yards in receiving. Pitt even missed a 35 yard FG at the end of an 8pl drive and missed a 33 yd FG at the end of a 9pl drive in the 1H. It was VT's largest halftime deficit s/'07... East Carolina and Southern Miss both started new QB's last week. EC went to Shane Carden who hit 13-27-171 and guided the Pirates to the upset win. There's not doubting the athleticism that frosh Anthony Alford provides but he hit just 6-14-88 for SM and rushed for 13 yards on 20 carries. After B2B Alford fmbls, Chris Champbell who started the opener, came in with SM trailing 24-7 with 1:19 left in the 3Q and guided the team on a 79/9pl drive for a td. His 2nd poss went 3&out and his 3rd started at the 2. They went 47/13pl but his 4th & 12 pass at the SM49 was incomplete. SM surprisingly had a 324-228 yard edge with EC getting a 19 yd td drive after an Alford fumble late 3Q and then a 16 yd FR td on another fumble by Alford 3pl later for their 24-7 lead

# TER WIPPL AUTORIE RAMER REALIZED IN THE GAANVAL

These Power Play Forecasts are the most unique in the country because they are based on Northcoast Sports' Private Power Ratings. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected: Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at

a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays. Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and

allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings! Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our

Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little ac-tion all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense

tion all year, was not prepared and hit on just 4 of 13 passes tor 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense. Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in. Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units remained rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH! There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained in the national rating. Northcoast is not write the totem in rated third in the pass of the pass that a current of bird in the pass.

and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

### RTHCOA SPORTS US PL OR INUS /ER 51 The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses

and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

### NOTE: Power Plays - PP

# COLLEGE FOOTBALL Sep 19<sup>TH</sup>-Sep 22<sup>ND</sup>

Welcome to this week's issue of Power Plays. The Power Plays Newsletter consists of forecasts that are made by a special Power Plays rating system. This is a system developed many years ago and we regard it very highly. In our final analysis of the plays the Power Plays forecast takes up anywhere from 25 to 30% of our total analysis. You will see in the Power Plays Newsletter in the write-ups that we agree with the majority of the Power Plays forecasts. However, there are times when we will disagree with the Power Plays forecast. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. You should never use just one method, system or angle to determine your handicapping. The times that we disagree with the Power Plays Newsletter we will clearly note it. If the Power Plays rating is strong enough to be a 4 ★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections.

Plays rating is strong enough t	o be a 4★ Pl	lay, yet we are or	n the other sid	de of the gam	e, we will clearly st	ate that

PIT had little trouble with the Jets holding WR Holmes to 28 yds (9.3) & RB Greene to 23 yds (2.1). They now take on an OAK team that they are fairly familiar with in Palmer at QB & OC Haley was KC's HC going 2-3 SU/ATS vs them. OAK has only managed 68 total yds rushing (2.0) & they don't have the WR depth to challenge PIT. PP calls for PIT to get the win & we agree.
