NEWS AND NOTES

Does Ryan Griffin make a difference for Tulane? He played in the opener and TU played a very good game vs Rutgers. After being injured vs Tulsa and missing the last 3 games, Griffin ret'd to the lineup vs SMU. While SMU had a 29-13 FD and 471-342 yd edges, Griffin and Co pulled the upset at home. There were numerous key plays that helped TU win. SMU went on a 78/12pl drive and had a td reversed and put on the 1 and settled for a 22 yd FG in the 2Q. SMU went 64/13pl and had a 23 yd FG blk'd. Three plays later TU got a 79 yd td pass for a shocking 17-6 lead. SMU on 4&3 dropped a FD pass at the TU31 with :32 left in the half and TU got a 35 yd FG on the 1H final play to lead 20-6. Leading 23-20 SMU drove 60/12pl and settled for a 19 yd FG giving TU a chance

with 1:22 left. TU on 3&10 got a FD and 2pl later got a 16 yd Td pass with :35 left to pull out a 27-26 win with SMU only getting to their 35 at the end... Iowa RB Mark Weisman is not spectacular but highly productive and rushed for 116 yards. Michigan St's Le'Veon Bell ran 29 times for 140 yards and it was a low scoring game as expected with 2 defensive teams. It was also a rainy day in Spartan Stadium. Iowa was int'd on their first pass and MSU went 26/4pl for a td and led 7-0 with 11:11 left 1Q. MSU actually led the entire game. It was 10-3 at the half and MSU had a 169-65 yd edge. There were 5 punts to open the 2H then Iowa went on a 76/13pl drive for a 28 yd FG and MSU answered with a 72/13pl drive for a 22 yd FG, 13-6. After 2 more punts Iowa took over with

5:47 left and went 68/9pl and Weisman's 5 yd td run with :55 left forced OT. Each team got a FG in the first OT and in the 2nd MSU was int'd at the 16 on a tipped pass after Iowa had gotten a FG... Cody Vaz hadn't taken a snap since 2010 but Oregon St remained unbeaten and Vaz hit 20-32-332 yds vs a tough BYU D. BYU had a blackout crowd with the Cougars in black uniforms for the first time in the modern era vs Mendenhall's alma mater. Vaz completed his first 49 attempts for 75 yards. BYU had held its previous 12 opponents under 300 yards but OSU finished with a 450-386 edge. It was 14-14 at half and OSU had a 293-190 yd edge. It was 21-21 after 3Q's but OSU put together 77/8 and 77/5pl drives for td's to lead 35-24 then got a 49 yd IR td with 4:58 left to blow it open.

THE MOST UNIQUE POWER RATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their ratings in rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings!**

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defense.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense **MOVED UP 14 NOTCHES**. In Phil's Power Ratings they **stayed the same**, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units **remained** rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have **the most accurate forecast of yards gained and points allowed in the country!** **No other rating system takes into account all the previous factors.** Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

2012 COLLEGE POWER PLAYS RANKINGS

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards, Weather, Injuries, Home Field Edges, and successful Unbalanced Attacks. Regular rankings based solely on numbers DO NOT take into account these factors.

NOTE: Power Plays - PP

COLLEGE FOOTBALL October 18TH-October 23RD

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. If the Power Plays rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections.

SATURDAY, October 20th

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
NEBRASKA NORTHWESTERN	223	234	39	-6	-
	221	165	33	+5	-

NW playing its toughest opponent to date by far. PP is calling for Neb with a 457-386 yd edge. Huskers rested off a bye, off a Nat'l TV 25 pt loss and lone home loss revenge from LY (-17', 25-28).

NO PLAY: NEBRASKA 39 NORTHWESTERN 33

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
MINNESOTA WISCONSIN	99	131	9	-2	-
	230	199	30	-3	✓

NL at presstime but is there any doubt which way PP leans? Series history repeats as UW has won 8 straight, outgaining UM in the L/3 by 342 ypg and covering 4 of 5 here. UW with a 429-230 yd edge.

NO PLAY: WISCONSIN 30 MINNESOTA 9

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
ARMY EASTERN MICHIGAN	456	55	34	-6	-
	275	172	33	-4	-

EM's D has struggled mightily. Army is a step down vs other FBS foes but EM is still all'g 301 ypg (6.4) and now faces the #1 rush attack. PP proj's a 511-447 Army yd edge but they're 0-6 as an AF L11Y.

NO PLAY: ARMY 34 EASTERN MICHIGAN 33

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
BALL ST CENTRAL MICHIGAN	206	283	40	-2	✓✓
	152	312	33	-5	-

PP computes MUCH more than a teams avg as demonstrated. BSU is avg 456 ypg with PP calling for them to gain 489. CM is avg 365 ypg but in this matchup the forecast calls for 464 yds. Pass.

NO PLAY: BALL ST 40 CENTRAL MICHIGAN 33

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
BOWLING GREEN MASSACHUSETTS	222	203	32	0	✓
	133	179	11	-1	-

BG on a 3 gm win streak (avg 499-248). While PP isn't projecting that big of a margin on the road it calls for BG to cover as 17 pt chalk. However, BG's largest MAC AF role under Clawson is -5.

3★ BOWLING GREEN 32 MASSACHUSETTS 11

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
NORTHERN ILLINOIS AKRON	300	199	40	+1	✓✓
	112	324	28	-7	-

NI travels to Akron as a 2 td favorite. While PP does adjust for garbage yards and Akron has gained many, they've been backdoor covered 2 of the L3W. NI with a 499-436 edge.

NO PLAY: NORTHERN ILLINOIS 40 AKRON 28

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
GEORGIA KENTUCKY	233	316	50	0	✓
	119	184	18	-5	-

Quite frankly we're surprised that PP is calling for UK to have 303 yds as they've avg'd just 10 pts and 215 yds vs 4 other SEC foes. Bulldogs hungry off a 28 pt loss and 5-1 ATS as SEC AF L4Y.

4★ GEORGIA 50 KENTUCKY 18

	Yards Rushing	Yards Passing	Points	Turn Overs	Special Teams
WAKE FOREST VIRGINIA	120	185	25	+2	-
	187	285	27	-13	-

While the yards say UVA with a 472-305 edge, the points lean with the dog so we'll pass.

PRO FOOTBALL OCTOBER 18TH-22ND, 2012

Power Plays is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offense ranking vs visitor defensive ranking) over each teams last 4 games.

TEN also got a big win vs PIT on Thur but NDIV road teams off the mini-bye are only 3-9 ATS. (ARZ #29 vs MIN #8, MIN #18 vs ARZ #9) - MIN lost at WAS LW due to settling for 3 FG on their 1st 3 drives and then allowing 24 unanswered pts. Most young teams would have imploded but the fact their L3 drives were 80, 67 and 77 yds showed they weren't going to quit. ARZ may not have Kolb (ribs) here and Skelton flopped off the bench (45 yds, 20%, 1 int) in a winnable game. (CLE #26 vs IND #12, IND #13 vs CLE #27) - CLE snared their 1st win of the season 48 hours before Jimmy Haslam was to become the new owner. They may not have RB Richardson (ribs) vs an IND defense that was run over by the Jets for 252 yds (5.7) but Hardesty looked healthy off the bench. Luck has avg'd 300 ypg (55%) with a 6-2 ratio at home and has a top-notch target with Wayne. PP calls for CLE to win while being outgained by 45 yds so we'll hold off on the side with a team off a big win vs a foe off a big loss but the total is worth a look.

(BAL #8 vs HOU #15, HOU #16 vs BAL #22) - HOU was decimated by a focused GB offense on SNF as a slew of miscues helped do them in. They now get a beat up BAL defense that is likely to be without LB Lewis (triceps), NT Ngata (MCL sprain) and #1CB Webb (torn ACL) here. (GB #14 vs STL #2, STL #31 vs GB #21) - Why is the NFC West at 3-3 or better TY? It's due to the division having 4 of the top 10 defenses in yds and scoring so far. STL's vastly improved defense has a big challenge vs a GB team that just hung 6 passing TD's at HOU. Fisher is used to coaching up his teams after facing Manning's Colts for so many years covering 7 of the L10 matchups (2-8 O/U). PP thinks STL can keep it close with their run game and this is a No Play as we want to watch the public drive the line before making a final decision.

(DAL #12 vs CAR #23, CAR #21 vs DAL #5) - DAL has clear cut stat edges here but PP leans with the Panthers as the Cowboys TO's/coaching errors have them as a sub-.500 team. Teams have figured that they can roll coverage to WR Smith (DAL #1 pass def), minimize Newton's run game (leads team w/209 yds rush) and frustrate him they can then take their time with a thin defensive front 7 of CAR. We think DAL is a better all around team and coming off a loss vs a ground oriented team off a bye this is a No Play.

(WAS #9 vs NYG #17, NYG #5 vs WAS #26) - The Giants are off a massive statement game vs SF and are actually on a 12-3 ATS run including playoffs. Despite being atop the standings they have a dire need for a victory due to being 0-2 in the Div so far. WAS deserves to be commended for beating MIN LW but they have given up 394 ypg/28.3 ppg on the road TY and this is Griffin's 1st NFC East game. (NO #3 vs TB #24, TB #24 vs NO #32) - NO got a desperately needed win prior to the bye which they used to streamline the defensive playbook. We aren't surprised by NO's low rush forecast here as despite being an OL coach by trade, Kromer has allowed a whopping 96-236 run/pass ratio TY. TB thumped the talented but inconsistent Chiefs LW but now Schiano gets a Div rival that had extra time to pour over 4 games of tape (CAR only had preseason where they hid schemes) to work with. (NYJ #30 vs NE #29, NE #1 vs NYJ #16) - LW's results provided good line value as Brady made big mistakes albeit vs a solid defense on the road and the Jets blew out a Colts defense in their 2nd road game of the season. Incl playoffs, NE is 11-1 SU/ATS off a 3 pt loss and NE has avg'd 35.3 ppg the L3 times after Brady has had 2 or more int. The Jets lack the firepower to keep pace with that and PP calls for NE to have a 232 yd edge (#3 TW) here but the margin tempers the grade.

	Yards Rushing	Yards Passing	Points	YTD TO Margin	Special Teams
JACKSONVILLE	97	140	16	-2	#32
OAKLAND	177	326	28	0	#10

(JAX #32 vs OAK #25, OAK #17 vs JAX #30) - OAK is off a misleading final as they outplayed the undefeated Falcons with a 474-286 yd edge but a pick-six by Palmer cost them the game. In his L4 HG's Palmer has avg'd 323 ypg (71%) w/a 7-2 ratio (1-2-1 ATS) and he is cemented as the team leader. Aside from the season opener Gabbert has continued to regress working behind a patchwork OL/LWR unit and CHI showed how you can shut down MJD for the 1H then make JAX play from behind you can blow up their gameplan. PP gives OAK a good margin in points and yards (+266 #1 TW) but with OAK being 6-15 ATS as a HF we'll reign it in a bit.

	Yards Rushing	Yards Passing	Points	YTD TO Margin	Special Teams
PITTSBURGH	62	268	22	+2	#19
CINCINNATI	64	262	25	-7	#8

(PIT #10 vs CIN #6, CIN #6 vs PIT #4) - PIT was nickel and dimed by injuries on a short week in their loss to the Titans esp on the OL. Dalton's 4 TO's gave CLE 10 pts and their 1st win of the season LW. PIT fans travel very well here but without knowing the extent of their long injury list this is a No Play. **Get the Sunday Night Marquee Winner after 11:00 am ET Sunday morning. MONDAY, October 22nd

	Yards Rushing	Yards Passing	Points	YTD TO Margin	Special Teams
DETROIT	59	302	20	-1	#29
CHICAGO	106	263	36	+9	#1

(DET #2 vs CHI #3, CHI #25 vs DET #13) - DET is off a gut-check win vs PHI in OT where Stafford and Megatron started showing 2011's chemistry. CHI is finally playing to Cutler's strength's which takes a lot of pressure off a good but aging defense. DET could be 4-1 as well if not for special teams blunders and CHI is playing for Lovie Smith to get a contract extension sooner than later. This promises to be another quality divisional matchup for MNF. PP may give CHI the points but a lack of yardage (+8) makes it a No Play for now.
