NEWS AND NOTES

Stanford went on the road for the first time and led 13-3 late 3Q but on a key play, Washington on 4&1 got a 61 yd Sankey td run to get back in it. They later got a 35 yd td pass with 4:53 left and SU's last gasp was a 4&4 int with 1:46 left at the UW8. Josh Nunes hit 18-37-170. It was UW's first win over a Top 10 team s/09 and the student section poured on to the turf of CenturyLink Field at the end and actually gave them more of a home field edge than we thought they would playing away from their home stadium this year. UW finished with a 313-240 yd edge and 13-10 FD edge...One of the more shocking totals of the day was that Middle Tennessee outrushed Georgia Tech 264-238 so there was nothing fluky about their win and it was also the first time GT had lost consec HG's s/'88. MTSU had a 510-425 yd edge. GT was banged up at LB as starter Jeremiah Attacchu was out and Brandon Watts play sparingly (inj). MT had leads

of 14-7 and 21-14, 28-21 then GT was SOD on 4&12 at the MT25 and MT got a 75 yd td pass on the next play. NT led 42-28 when GT was sk'd on 4&22 and MT took over with 3:42 left and ran the ball 5x going 42 yds for a td with 1:17 left for the 21 pt upset win... Stony Brook RB Miguel Maysonet rushed for 220 yds as SBU upset Army keeping the Black Knights winless. The Seawolves led 13-0 at half and 20-3 after 3Q's. Army QB Trent Steelman was hobbled but still rushed for 89. Army blew some opportunities and fell to 1-14 when trailing at the half. Army went 34/5pl but fumbled at the SB31 in the 1Q, went 45/8pl and was SOD on 4&1 at the 3, they fumbled at the SB34 at the end of a 41 yd drive in the 2Q and fmbl at the SB10 at the end of a 71/10pl drive. Army went on a 52/8pl drive settling for a 39 yd FG then went 72/10pl and fumbled at the SB6. Army's final drive was SOD on 4&19 at their own 34. SB did finish with 424-330 vd and 25-18

FD edges...Bud Foster has to be disappointed with his Virginia Tech D. Cincinnati rolled up 494 yds with Munchie Legaux hitting 19-42 but those 19 comp went for 376 yds in a game played in Washington Redskins Stadium. Naturally VT had an overwhelming majority of the crowd. The score was 13-7 after 3Q's but the teams combined for 31 pts in a wild 4Q. UC had a 165-72 vd edge in the 1H but VT led 7-6 despite not getting their first FD until 5:17 was left in the half. UC settled for 20 and 43 yd FG's, was SOD at the VT3 after going for it on a fake FG. They had a td run wiped out by a hold on Legaux. They were int'd at the VT31 and int'd at their own 13 setting up a VT 13/4pl drive for the td. At the half UC had a 10-2 FD edge. VT was int'd at the UC2 in the 3Q but VT got a 56 yd td pass on 2&9 with 1:49 left to lead 24-20. UC went 85/9pl and on 3&10 got a 39 yd td pass with :19 left.

THE MOST UNIQUE FOWER RATINES IN THE COULTERY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

GOM

Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected: Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, in 1992, Washington's defense vs the rush was rated at a "110" (From 1-100). They faced Colorado and allowed 183 yds rushing and **dropped 12 spots** in the national rushing defense ratings. However, Power Plays took into account the potent Buffalo run attack and had forecasted the Huskies yielding 225 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings.Another example was Michigan vs Purdue in 1989. Michigan held Purdue to just 45 yards rushing and improved their rating rushing defense in the national statistics. However, our ratings had them rated at a 102 and moved them down to 99, as they should have yielded just 32 yards to an impotent Purdue rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run **you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have!** The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are **counted** into national ratings, **but not in Northcoast Sports' Power Ratings**! Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When South Carolina played NC State in 1989, South Carolina QB Todd Ellis was injured on the third play of the game. His backup, who had seen very little action all year, was not prepared and hit on just 4 of 13 passes for 65 yards. The offensive coordinator did not risk any passes. In the national statistics NC State's pass defense MOVED UP 14 NOTCHES. In Phil's Power Ratings they stayed the same, as the low yardage WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in. Successful Unbalanced Attacks: In 1989, Ohio St was held to 127 yards passing vs Northwestern. This dropped OSU in the national passing offense ratings & RAISED the Wildcats in the pass defense ratings. In our ratings the two units remained rated the same. Why? OSU rushed for 456 yards & DID NOT HAVE TO PASS & when they did they hit 9 of 11 passes, which is VERY effective. While Northwestern's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH! There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

NOTE: Power Plays - PP

COLLEGE FOOTBALL October 4TH-October 6TH

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the Power Plays Newsletter and these forecasts are based purely on the power ratings. If the Power Plays rating is strong enough to be a 4 \star Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's Power Plays Selections.

Just a quick note for our Power Plays Subscribers. Obviously this newsletter is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the SEATTLE projections to be more reliable after a number of weeks worth of stats are input. The numbers here are based upon CAROLINA how they finished last season with adjustments made due to personnel changes.

ARZ needed OT to beat a team with a rookie QB going cross country but are 4-0 for the 1st time in 38 years. STL holds the situation edge at home on a short week vs a team in its 2nd road game CHICAGO so far. PP has this at the line & with Fisher keeping the Rams on an even keel this is a No Play. While ATL is only middle of the pack on off/def so far TY (#15 both after SNF) their +10 TO margin leads the league. WAS has the #8 off but #31 def giving up 31 ppg. The difference between this ATL N team and previous years is that their OC is very aggressive with the play calling thanks to Ryan hav-ing elite WR's to work with. WAS is only 8-15-2 ATS at home under Shanahan but the Over is worth (36 str starts) to IR his replacement, Dan Koppen, started 120 gms for NE. PP calls for a fairly even a look with the 2nd most yds forecasted this week at 835.

PHI is the only tm with a top 10 off/def at this point but their 3 wins have been by a comb 4 pts TY. Now off a SNF gm vs NYG they get to take on a PIT tm that's had extra time to stew over blowing a pair of 10 to be without their starting RT/LG on the road vs a SF team that just shutout the Jets. SF is 11-0-1 pt leads to OAK who was thumped by DEN LW. PP has this around the line though making it a No Play. NO PLAY STEELERS 22 EAGLES 19

The Giants are only 6-12 ATS at MetLife Stadium & 3-8 ATS as a fav of 7 or more. They are off NY another brutal loss to PHI as a rarely called offensive PI pen pushed them out of FG range. CLE has extra rest & while they are 0-4 they are an improving team getting lots of pts vs a team that has a rematch vs SF on deck. PP leans with the Giants but the situation favors CLE so No Play.

CAR showed a lot of mettle vs ATL rallying from 10 down & sacking Ryan 7x's but a fmbl by Newton set them up for a last second loss. SEA came back to earth after their MNF "win" vs GB as Wilson tossed 3 int & their ST's imploded. SEA does have the #3 D & is all'g just 3.0 ypc on the ground. JAX owns the situational edge at home for the 2nd str wk vs a CHI tm on the road off a MNF gm vs DAL with a bye on deck. However, CHI owns all the talent edges on the field & have shown they don't mind beating on lower level teams with 20 & 17 pt wins vs IND/STL. JAX has only avg'd 258 ypg with Gabbert starting & they now face the #5 def prior to MNF. PP leans with CHI here but not having a firm line keeps this from being stronger.

Making matters worse for BUF after giving up 52 pts at home to a Div foe is that they are likely ATS at home & they may have lookahead with a rematch vs the team that beat them in the NFC Championship up next. PP gives SF the 2nd biggest yardage margin this week (+134) but with the line close to 10 & the Giants on deck we'll limit the grade.
