2011 - ou

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119.

They faced Alabama and allowed "just" 256 yds rushing and dropped 5 spots in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on Ty tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are varies that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is chead 63.0 and allows in the final minutes of a game when it has been decided. For example, Team A is chead 63.0 and allows in the final minutes of a game when it has been decided.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect

the conditions and do not give excess credit to the defenses.

Injuries: When Missouri played In miserable weather conditions and do not give excess credit to the defenses.

Injuries: When Missouri played Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense MOVED UP 8 NOTCHES. In Phil's Power Ratings they went from #11 dropping out of the Top 15, as the poor performance WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & RAISED the Cougars in the pass defense ratings. In our ratings the two units remained rated around the same. Why? Tulsa rushed for 350 yards & DID NOT HAVE TO RELY ON THE PASS & when they did they hit 18 of 32.

While Houston's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

T'OUGHEST' OPPONENT

WHAT ARE THE TOUGHEST OPPONENT RANKINGS?

These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in '12 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA in '13. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. hese are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules last year.

NOTE: Power Plays - PP COLLEGE FOOTBALL NOV 19TH - NOV 25th

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4* Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.

| KANSAS ST | 306 | 132 | 174 | 24 | +5 | _ |
| WEST VIRGINIA | 459 | 178 | 281 | 26 | -13 | - |

KSU has won & covered the 2 B12 meetings, winning by 32 ppg. PP is projecting WV to have a 153 yd edge but to only win the gm by 2 pts, which is right at the opening line (WV -2). Pass.

| UTEP | 280 | 172 | 108 | 22 | +8 | V V |
| RICE | 370 | 180 | 190 | 30 | +8 | _ |

The Owls are on a 10-1 ATS run in the series. PP is forecasting them to have nearly a 100 yd edge & to win by 8, but they are laying DD's & we lean w/UTEP who cashed us our 5★ GOY LW.

| | | | | | | |

VT has won 5 str in this series by 16 ppg. PP is projecting the Hokies to become bowl eligible with a 14 pt win while having a 121 yd edge. However, MOV is near the opening line (VT -15).

NO PLAY: VIRGINIA TECH 26 WAKE FOREST 12

| MIAMI, FL | 334 | 147 | 187 | 25 | +2 | V |
| VIRGINIA | 318 | 88 | 230 | 16 | +2 | _ |

While PP is calling for a 9 pt UM win here, it does have them with only a 334-318 yd edge. PP also can't factor in the situation as UVA is off a bye while UM is off an emotional loss to FSU. Pass.

NO PLAY: MIAMI, FL 25 VIRGINIA 16

| TENNESSEE | 413 | 155 | 258 | 28 | +2 | _ |
| | | | | | | |

MO is 2-0 SU/ATS in series. PP loves the Vols here and we agree as they have been a completely diff off w/Dobbs at QB and MO's wins over SC and UF on SEC road earlier TY were misleading.

4★ TENNESSEE 28 MISSOURI 19

| | Ttl Yds | Rush | Pass | Points | TO's | ST's |

| MICHIGAN ST | 547 | 250 | 202 | 44 | ⊥1 8 | _ |

LW Rutgers became bowl elig but TW will be a diff animal. PP is proj the Spartans to have a huge 307-yd edge as the Knights have been outclassed by the B10's elite TY and will get rolled again.

3★ MICHIGAN ST 44 RUTGERS 18

Ttl Yds Rush **Pass Points MINNESOTA** 314 223 91 27 +9 **NEBRASKA** 393 244 149 31

While Nebraska will be playing w/revenge from LY's loss, PP calls for this one to be tight (opening line Neb -10') and we agree as the physical Gophers can play toe-to-toe w/the Huskers style of play and we also wonder what Neb's mind set will be here as they were destroyed LW.

4★ MINNESOTA 27 (+) NEBRASKA 31

OSU has won 19 in a row in the series and PP is calling for complete domination here. It has the Bucks w/a 322 yd edge and we agree as OSU needs to make a statement after LW's backdoor.

3★ OHIO STATE 57 INDIANA 16 Ttl Yds Rush Pass **Points** ST's MARYLAND 221 32 189 17 -3 VV **MICHIGAN** 350 168 182 23 -13

These new B10 conf rivals haven't met s/1990 & Mich has won all 3 prev meetings by 22 ppg. PP is proj the Wolverines to have a 129 yd edge & to win by 6, but we have a slight lean w/MD.

NOTE: Power Plays - PP

PRO FOOTBALL Nov 20th Nov 24th

Power Plays is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offensive ranking vs visitor defensive ranking) over each teams last 4 games.

(ARZ #13 vs SEA #1, SEA #9 vs ARZ #8) - The Cardinals challenge to their NFC West lead starts now with 3 road games in 4 Wks with 4 of their final 6 gms vs a Div foe. ARZ beat SEA here 17-10 LY & won't be intimidated by the crowd noise. SEA is sorely missing Golden Tate in the passing game & ARZ's defense matchés up very well (81 ypg rush 3.5 69.6 defensive QBR L6) heré. SEA lost Ctr

(STL #32 vs SD #24, SD #31 vs STL #13) - This isn't a surprise really as the Rams have played quality ball on defense the L4W vs a tougher schedule while the Chargers aren't the same team that peaked in Sept. STL is limited offensively due to a lack of playmakers but their defense is solid throughout. The Chargers OL is in a questionable state here (Ctr, LT) & may be down to their #3 NT after allowing 135 ypg (4.3) rushing in the 4 games prior to OAK. We are wary of avg at best teams off marquee wins & this is STL 4th road game in 5 Wks. We'll pass on the side but the total is very attractive here.

(MIA #20 vs DEN #5, DEN #3 vs MIA #2) - This forecast makes sense looking at DEN over the L4W. They thumped an underwhelming SD team at home on a short week, was rolled by NE, bounced back vs the lowly Raiders & lost to the offensively limited Rams. MIA beat a beat up BUF team on a short week but now has to travel to altitude vs a feam who's defense lost them the game. DEN is 7-0 SU/ ATS off a loss but keep in mind they may not have #1 TE Thomas (ankle), current #1 RB Ball or #2 WR Sanders (concussion) here. PP calls for a close game but DEN's injuries here makes this a No Play.

(WAS #12 vs SF #15, SF #25 vs WAS #11) - WAS gave up 6 sacks at home off a bye to TB who was 28th in sacks by entering the game. They now travel cross country possibly without 5 players who played vs the Bucs including stud LT Williams with LG Lauvao (concussion) being a question mark as well. SF is playing itself back into the NFC West picture by playing to its strengths with their run game & defense which was reinforced by Aldon Smith LW. PP calls for the home team with a 19 TO edge who is 7-2 ATS as a NDIV fav of 7 or more to get the win vs a WAS team on a 1-6 ATS run to get the win & we agree.

(DAL #10 vs NYG #31, NYG #11 vs DAL #20) - The Cowboys return from their bye week but have B2B Thursday games on deck with PHI being the 1st in their Thanksgiving showcase. The Giants imploded at home LW with 5 Ints by Manning vs a SF team travelling for the 2nd straight down both starting CB's. This is the Giants last chance in primetime (5-2 ATS on SNF) to make an impression but a win by DAL puts the pressure on PHI in their next game.
