WEEK FOURTEEN COLLECE MATCHUR HISTORY

NORTHONAGE COORTG

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season

The Hower Haungs listed below are not based on the Hower Halys, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power rating to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

NOTE: Power Plays - PP COLLEGE FOOTBALL NOV 27TH - NOV 29TH

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections

Power Plays is based upon statistical numbers and rankings that are used to develop the projections you see here As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offensive ranking vs visitor defensive ranking) over each teams last 4 games. THURSDAY NOVEMBER 27TH

(CHI #15 vs DET #11, DET #17 vs CHI #27) - The Lions will be in a foul mood here as they came up short vs a physical defense then were found sorely lacking vs a high powered offense. Stafford hasn't scored a passing TD in 3 games but they do get the Bears off a big win vs their former coach. CHI is 1-5-1 ATS on Thursdays but the Lions stunningly haven't hit 27 points since Wk 1. PP calls for a lower scoring game here & that is the play at this point.

(PHI #5 vs DAL #23, DAL #11 vs PHI #20) - The NFC East will be decided in the next 3 Wks as these teams meet twice in primetime games. With DAL off LW's SNF game its fair to wonder how much gas the defense has left in tank (on field for 74 plays) vs PHI who ran 83 plays vs TEN. DAL has dropped 3 straight Thanksgiving games but this is a different DAL team than previous years. PP has this right at the number making the side a No Play but the Total is hard to resist here.

Non-conf HF's of 9 or more are 17-8 ATS & Luck has a personal interest in this game after losing the Heisman to Griffin. PP calls for IND to win easily here & we agree.

(TEN #28 vs HOU #28, HOU #13 vs TEN #29) - The Texans are expected to go back to Fitzpatrick after Mallett (pectoral) injured himself LW. HOU goes from facing a playoff contender that has been to the postseason 3 yrs in a row to a DIV rival with a rookie QB evaluating for 2015. This game features the #4 rush attack (even without Foster) vs the #32 rush defense that lost its FS LW. The dropoff at QB here isn't that big honestly for HOU & this is TEN's 3rd road game in 4 Wks with Watt coming off a very quiet game LW. PP calls for the home team here & we agree.

MI game was moved to DET on MNF due to weather issues. They are on a 2-6 ATS run & now face their former DC that is coaching a QB that tore his ACL vs BUF LY. CLE has only covered B2B games NY twice TY & this is their 3rd road game in 4 Wks with IND/CIN at home on deck. There is no solid line which came after their bye week. As a result there is no line involving a team with just 2 ATS wins in here & without knowing if CLE FS Gipson (knee) who leads the NFL in Ints status or how the Bills a series where the visitor has covered 5 straight. With the Ravens also coming off their bye week there isn't ATS WINS ATS LOSSES enough information (did Kubiak tweak the #11 offense, how did the changes in the secondary fare?) While the Giants have the overall talent edge they've been outgained by 110 ypg on the road TY & the Jaguars have the edge with their #3 pass rush while the Giants are 27th. PP calls for this right at the line with the Giants in their 2nd road game in 6 week span vs a JAX team that is 3-10 ATS at home so No Play.

TB's mental errors are ruining a great season by Mike Evans who's 841 rec yds are 11th so far. PP calls for CIN to win fairly comfortably but their schedule situation limits the grade here.
