THE MOST UNIQUE POWER PATINGS IN THE COUNTRY

These Power Play Forecasts are the most unique in the country because they are based on **Northcoast Sports' Private Power Ratings**. Our ratings are unlike any computer rating, as we take into account all of the following: Strength of Opponents Individual Units (Rushing Offense and Defense, Passing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:

Strength of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Alabama and allowed "just" 256 yds rushing and dropped 5 spots in the national overall defensive ratings. However, Power Plays took into account the potent Crimson Tide run attack and had forecasted the Owls yielding 289 yds. Due to the fact they did better than the forecast, Power Plays raised their rating to 112 even though they slipped in the national (straight yardage) rankings. Another example last season was Wisconsin vs UTEP. Wisconsin held UTEP to just 77 yards rushing and stayed the same in the overall defense in the national statistics. However, our ratings had them rated at 15 and moved them down, as they should have yielded just 50 yards to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs the run you better check Northcoast Sports' Power Ratings and see how good a rush defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

defense they really have! The top twenty ratings in Power Ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.

Garbage yards: These are yards that a team gains or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth string defense. These yards are counted into national ratings, but not in Northcoast Sports' Power Ratings!

Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings reflect the conditions and do not give excess credit to the defenses.

Injuries: When Missouri played Vanderbilt last year, Tigers QB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive coordinator simplified the offense. In the national statistics Vanderbilt's overall defense MOVED UP 8 NOTCHES. In Phil's Power Ratings they went from #11 dropping out of the Top 15, as the poor performance WAS NOT reflective of an outstanding performance by the defense.

Home Field Edges: The weekly projection of yards and points is weighted with the home field factored in.

Successful Unbalanced Attacks: Last season, Tulsa was held to 155 yards passing vs Houston. This dropped Tulsa in the national passing offense ratings & RAISED the Cougars in the pass defense ratings. In our ratings the two units remained rated around the same. Why? Tulsa rushed for 350 yards & DID NOT HAVE TO RELY ON THE PASS & when they did they hit 18 of 32. While Houston's pass defense looked good in the national ratings, only Northcoast Sports' Power Ratings reflected the TRUTH!

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained

There you have it. More than just numbers, THESE RATINGS REFLECT the true strength of each unit and allow them to have the most accurate forecast of yards gained and points allowed in the country! No other rating system takes into account all the previous factors. Next time you hear that a team is rated third in the country in pass defense, just remember, yards are not everything and Northcoast Sports' Power Plays will show you how strong the team really is.

NORTHCOAST SPORTS PLUS OR MINUS POWER RATINGS

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and they differ from what we have shown in recent years, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

Listed below are Northcoast Sports' Power Play Rankings. These Power Play Rankings are unique. Our rankings are unlike any computer ranking, as we take into account all the following: Strength of Opponents, Individual Units (Rushing Offense, Rushing Defense, Passing Offense, and Passing Defense) Garbage Yards,

Weat	her, Injuries, Home F	ield Edges, and successfi	ul Unbalanced Attacks. Reg	gular rankings based solel	y on numbers DO NOT take	e into account these factors.

2014 TOUGHEST OPPONENT UNITS FACED

WHAT ARE THE TOUGHEST OPPONENT RANKINGS?

These rankings go far beyond the NCAA's straight statistical ranking of each team. For example in '12 Notre Dame ranked #89 in the NCAA in rush defense allowing 170 ypg, but ranked #40 in our rush defense rankings because they faced the toughest schedule of rush offenses in the NCAA in '13. As you can see, the NCAA's statistical rankings can be misleading. In the upcoming weeks we'll provide examples of this year's statistical disparities. These are the current rankings for this year. Here are the teams that have took on the toughest & easiest schedules last year.

NOTE: Power Plays - PP

COLLEGE FOOTBALL October 16TH-21st

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.

VIRGINIA TECH	317	160	157	22	-1	_
PITTSBURGH	347	163	184	20	0	VVV

Both trns have had up and down seasons. PP is calling for a tight contest here w/VT coming away w/a 2 pt win but Pitt having a 347-317 yd edge. Too close to the opening line to make a call.

BOISE ST	530	206	325	38	0	~

Boise has dominated the series going 11-2 SU and have covered 8 str. PP calls for them to easily go to 12-2 SU here, but the MOV is close to the opening line (Boise -15). Pass.

FIU	297	136	161	19	+11	-

The unbeaten Herd are +266 ypg (#2) and are outscoring their foes by 31 ppg. PP calls for them to come away w/a 17 pt win and have a 519-297 yd edge but we think it will be more lopsided.

Despite the possibility of playing a 3rd string QB here, the Cuse are +23 ypg on the ssn (#17 sked) while WF is -142 ypg (#73 sked). PP calls for a 4 pt Cuse win which is near the opening line.

NORTHERN ILLINOIS	492	258	234	33	+2	_

N III's long home and MAC reg ssn win streaks came to an end LW. While PP calls for MU to stay well under the number (NIU -14), it can't factor in emotion and situation as NIU will be angry off a rare loss playing a 3rd straight HG while MU is playing for an 8th straight week (5th AG in 6 wks).

The HT has won 4 in a row SU/ATS in the series w/an avg MOV of 18 ppg. PP calls for more of the same, but we disagree and can't lay DD's w/a tm that is avg just 24 ppg vs FBS foes TY.

NORTH CAROLINA	521	192	330	40	0	_

GT has dominated the series going 14-2 SU (4-0-1 ATS run). PP calls for that streak to end TY as NC showed they didn't quit yet on the ssn LW and PP has them w/a significant 521-415 yd edge.

NC STATE	200	82	119	12	+1	-
LOUISVILLE	454	197	258	35	+2	-

NC State is off B2B blowout losses and have started to wear down after playing FSU, Clem and a physical BC tm. PP calls for the Cards and their #1 D to dominate here w/a 23 pt MOV (opening line -14) and a 454-200 yd edge making this a clear play.

EASTERN MICHIGAN	396	225	171	29	-11	_
MASSACHUSETTS	525	178	347	42	-4	_

Both tms are coming off rare MAC wins. While PP calls for UMass to come away w/a 13 pt win, we disagree and can't lay DD's w/a tm that hasn't layed more than 5' in their short FBS history.

BOWLING GREEN	508	212	297	37	+1	VVVV

The defending MAC champs have righted the ship after a shaky start. Tough to ignore the home/away dichotomies here as BG is +79 ypg at home (-213 away) while WM is +153 ypg at home (-26 away). PP calls for BG to move to 4-0 in MAC play w/a 5 pt home win and we'll agree.

TROY	500	192	308	36	+3	_

Troy played their best gm of the yr LW following HC Blakeney's announcement. PP calls for this near the opening line, but can't factor in Troy's new-found emotion for their departing HOF coach.

NO PLAY: TROY 36 APPALACHIAN ST 31

NEVADA	362	127	235	25	+5	_
BYU	575	280	295	39	0	VV

While PP calls for a 14 pt BYU win w/a 575-362 yd edge, the Wolfpack have played better away from home TY as they nearly upset a very good Arizona team. BYU is 0-3 ATS as a HF TY and w/a bkp QB, we don't feel they should be laying DD's here.

NO PLAY: BYU 39 NEVADA 25

KENT ST	419	174	246	25	+1	~

Tough laying pts w/an Army tm that has lost 18 str away from home and hasn't covered as an AF s/'96 (0-11). PP calls for this to go down to the wire w/Kent having a 419-386 yd edge and while we haven't been impressed w/the Flashes to date, we'll back them here w/stipulations.

ARIZONA ST	428	123	305	25	+1	_

The Cardinal dominated the Devils in each of their two meetings LY. While PP calls for SU to pick up a 5 pt win, it does call for ASt to have the ydg edge. We disagree and think SU covers (-3').

NO PLAY: STANFORD 30 ARIZONA ST 25

WASHINGTON	315	183	133	21	+14	VV
OREGON	531	252	280	35	+9	_

Oreg has remarkably won and covered 10 in a row in this series winning by an avg of 26 ppg. PP calls for that cover streak to end TY (Oreg -20') but we won't step in front of a series domination.

NO PLAY: OREĞON 35 WASHINGTON 21

UAB	457	198	259	35	-3	_
MIDDLE TENNESSEE	504	249	255	35	+1	_

RUTGERS	299	92	208	18	-2	-
OHIO ST	561	237	325	44	0	VV

Both teams are fresh off a bye & while RU is the surprise team of the B10 to date, the Buckeyes are hitting their stride behind rFr QB Barrett as their offense has avg'd 56 ppg their L/3 gms. PP is forecasting OSU to give their homecoming crowd a blowout win & we fully agree.

TEXAS A&M	359	65	295	24	-6	VV
ΔΙ ΔΒΔΜΔ	533	245	289	36	-2	_

After B2B disappointing performances on the road, Bama will be happy to return home (only HG in 7 wk span). While PP is proj a 12 pt Tide victory, we disagree & feel the Tide will roll by even more over an overrated A&M tm that has had six 4Q td's in the L/3 wks giving us line value.

INDIANA	441	191	250	33	-3	-

While PP calls for the Hoosiers to be outgained by only 62 yds making this gm closer than expected (opening line MSU -14'), their QB Sudfeld is most likely out for this gm. They also had to play a converted LB at QB in the 2H LW and we'll pass on this matchup for now.

BOSTON COLLEGE	320	202	118	17	-1	VV

CU has been much improved since they inserted true frosh QB Watson as the st'r but he broke a finger LW & his status is ? here. We'll still side with the Tigers & agree with the forecast above.

The loser of this one will certainly be left out of any playoff discussion making this a 'defacto' playoff gm. PP leans with OU (opening line -9') and has them w/a 437-300 yd edge and we agree.

SA comes into this matchup fresh off a bye and PP is projecting the Jaguars to handle business easily, winning by 26 & outgaining the Panthers by 214 yds. W/an opening line of 17, we'll make the Jags a play as they beat ID by 24 and App St by 26 in their L/2 SBC gms.

PRO FOOTBALL October 16th-20th

Power Plays is based upon statistical numbers and rankings that are used to develop the projections you see here. As with all types statistical information the more numbers that one inputs ordinarily the stronger the accuracy of the results. Therefore, one would expect the projections to be more reliable after a number of weeks worth of stats are input. The numbers in parenthesis are a comparison of the teams rankings (Visitor, visitors offense ranking vs home defense ranking, Home home offensive ranking vs visitor defensive ranking) over each teams last 4 games.

NY JETS	256	101	155	14	-9	#3
NEW ENGLAND	360	105	255	28	+9	#15

along with the woeful play of the Jets QB position is apparent in the large line here. This isn't a runaway entire career with the Lions. PP sides with the home team but we disagree so No Play. pick for NE who are 6-20 ATS as a DD favorite, lost #1 RB Ridley, #1 LB Mayo & OG Connolly in their win vs BUF. The Jets haven't gotten a QBR above 72.0 outside of the OAK game & lost OG Winters/ CB Miliner also. We want to see who goes where with so many injuries so No Play.

INDIANAPOLIS	463	137	327	34	+1	#6

(CIN #4 vs IND #5, IND #1 vs CIN #24) - The Colts are in a prime situation at home with extra rest vs a behind them. PP calls for the road team to keep it within the points & we agree here. CIN team that has nothing to show for playing an entire extra Qtr vs CAR. IND is +170 ypg the L4W while CIN is +9 ypg & IND's +83 yd edge here is the 3rd biggest of the week. The Colts are 15-6 ATS at home & their #5 pass defense the L4W is legit as shown by a 74.9 def QBR (5th). Look for CIN to try & seize the game by rushing the ball but the Colts have the skill player edge esp with AJ Green not playing here.

the Jaguars at home once again. TEN lacks the offensive weapons or trigger puller for Whisenhunt's they handle the spotlight after beating SEA & this is a No Play. system with Whitehurst's saving grace being his experience in the system. TEN is giving up a 99.4 opposing QBR but Cousins is now 1-7 SU as a starter for WAS who are 8-16 ATS as a NDIV fav & 2-5 ATS at home off a loss. PP has a slight lean with the home team but we are undecided so No Play.

(MIA #19 vs CHI #13, CHI #9 vs MIA #11) - CHI mauled a bad ATL defense LW with a 191 yd edge which was a season high. MIA is steamed that they let a winnable win at home vs an elite team slip thru their fingers. Cutler only has 1 set of B2B games with a QBR of 100 or more with CHI & the Dolphins did a good job slowing Rodgers down until late in the game LW. PP has this right around the line with a team thats just 2-11-2 ATS at home.

CLEVELAND	377	126	252	24	+3	#18
JACKSONVILLE	296	91	206	13	-8	#25

(CLE #13 vs JAX #26, JAX #26 vs CLE #21) - This is a dangerous game for CLE off B2B high intensity games & are starting to get lots of positive pub. The loss of All-Pro Ctr Alex Mack (5,279 consec snaps) can't be underestimated but this is the same JAX team who embarrassed CLE at home LY & sealed the fate of the previous coaching staff. JAX is 2-6 ATS after a cover, PP gives the road team the 4th largest yard margin & we'll take CLE here but limit the grade as we want to see how a young team/coaching staff handles success.

SEATTLE	246	108	138	24	+1	#17
ST LOUIS	271	69	203	16	-3	#24

(SEA #27 vs STL #12, STL #11 vs SEA #16) - SEA's stats the L4W have them as an avg team which makes sense w/a 2-2 record & 97-97 scoring tally. The Seahawks were simply outplayed after their round trip to WAS LW but they are 12-4 ATS off a loss & how they lost vs DAL should start a needed spark. STL is off LW's MNF game vs DAL & without a real line this is a No Play.

GREEN BAY	375	124	251	35	+9	#21		

(CAR #18 vs GB #20, GB #28 vs CAR #31) - GB may not have the sexy stat edges you'd expect here Indianapolis but thats due to being +9 TO's the L4W. They do have the edge of being at home with CAR on the Green Bay road after a full extra Qtr at CIN. GB is dinged up at CB & NDIV HF's of 7 or more are on a 38% cover rate right now. GB has a SNF game at NO on deck & have had trouble with mobile QB's before & are #32 in rush defense right now. We lean with the other side right now & this is a No Play.

/ATL #0 DAL #40 F	A	""	10 1	1.01 12 1	1 101	AT1

(ATL #8 vs BAL #18, BAL #6 vs ATL #23) - LW's results damaged the line value here with ATL getting outFD 14-5 & outgained 275-98 in the 1H at home vs CHI & were lucky to be down by just 10. Minus the TB game the Falcons are allowing 157 ypg (4.4) on the ground & giving up 3rd Dns at a 50% rate which is back breaking. Flacco had a career day vs a TB team that had no answers for anything on the day. BAL does have CIN/PIT on deck & with the large line here we'll temper the grade.

BUFFALO	322	114	209	23	+3	#2

(MIN #23 vs BUF #6, BUF #24 vs MIN #14) - The Bills take a massive step down in competition going from a team thats consistently had its number thanks to an elite QB to a rookie in his 1st road start. MIN's OL has been exposed for its poor pass blocking ability the L2W & have been held to under the NFL avg of 7.27 ypa in 5 of 6 gms with a QBR of 56.5 minus the STL game (Gabbert 77.4 in 2012). PP leans with the home team here but without enough yardage to back it up this is a No Play.

(NO #2 vs DET #2. DET #30 vs NO #9) - NO is 7-0 SU/ATS off a bye as Brees is known for the extra work he puts in during the time off. NO won't have TE Graham here & while they expect RB Ingram back its not the same level of explosiveness. DET's defense is the real deal but aside from Rodgers (NYJ #32 vs NE #10, NE #14 vs NYJ #15) - The dominance of the team with the better HC/QB tandem they've haven't faced an elite QB. They've also missed more FG's this yea than in Jason Hansen's

SAN DIEGO	394	119	276	25	+7	#5

(KC #17 vs SD #3, SD #4 vs KC #7) - KC is only 2-5 ATS off their bye week but this is a decent matchup for them vs a Chargers team dealing with lines that are starting to inflate. KC played well enough to win vs DEN/SF & won't be intimidated by Rivers' success coming against lower level teams the L3W. KC's ground game matches up well vs a SD def that has had the luxury of playing with the scoreboard

(NYG #16 vs DAL #17, DAL #3 vs NYG #25) - PP doesn't take into account injuries or intangibles such as what happened to the Giants on SNF. DIV teams that were shutout by another DIV foe in their last game are 0-8 SU/ATS losing by an avg 14 ppg. DAL has traditionally had issues with success being (TEN #24 vs WAS #22, WAS #12 vs TEN #28) - The Titans were a blocked FG away from losing to just 1-9 ATS as a HF off a SU win. This is a different Cowboys team in 2014 but we want to see how

(ARZ #31 vs OAK #19, OAK #22 vs ARZ #27) - OAK took it to SD LW as they let Carr air the ball out & they got something finally out of their ground game (McFadden 80 yds 5.7). Palmer gets to face the team that allowed him to resurrect his career & move onto greener nests. PP calls for the road team to get the win but their L4W stats & yardage difference here don't back it up so No Play.

(SF #15 vs DEN #4, DEN #7 vs SF #1) - SF has to travel on a short week after facing STL on MNF to face the Broncos on SNF with Manning looking to break Favre's career TD record. The 49ers offer a much stiffer test than the Jets do but without the MNF results or a real line this is a No Play.

(HOU #21 vs PIT #8, PIT #10 vs HOU #30) - The Steelers expected to be challenged by CLE after their 1st meeting getting beat by 21 by a foe you've dominated stings. While it's not the same defense (-28 TO's since 2011) that struck fear into opposing teams Roethlisberger remains an elite QB. HOU has extra rest after coming up short vs IND on Thursday Nite & everyone will get to see if Watt can change a game around on MNF.
