THE WIPOL AUTORS LOWER RETURDO IN THE COMPLEX

Description of Opponents Individual Units (Rushing Offense and Defense, Assing Offense, & Defense, Scoring Offense and Defense, Garbage Yards, Weather, Injuries, Home Field Edge, and Successful Unbalanced Attacks). Here is how each is reflected:
 Strengt of Opponent: Our ratings do not just take the opposing team's overall power rating into account. For example, last year, Florida Atlantic's defense vs the rush was rated at 119. They faced Atlaama and allowed puist 728 yorks rushing and dropped 5 spots in the national overall defensive ratings. However, Power Plays took into account the potent Orimson Tide run attack and had forecassid the Over yeilding 289 yorks ushing and tayed the same in the overall defensive ratings. However, Power Plays took into account the potent Orimson Tide run attack and had forecassid the Over yeilding 289 yorks to a weak UTEP rush attack. Next time an announcer on TV tells you that a certain team is #3 in the country vs ther run you better check Northcoast Sports' Power Ratings and see how good a rush defensive ratings for each offensive and defensive category will be listed in each week's issue of Power Plays.
 Garbage yards: These are yards that a team gins or allows in the final minutes of a game when it has been decided. For example, Team A is ahead 63-0 and allows 93 yards passing for a TD vs its fourth set of the defenses.
 Weather: If a game is played in miserable weather conditions and is low scoring, the straight statistics credit the defense with outstanding performances. Our Power Ratings and see how poils, a the poor performance by the defense.
 Meetine: When Missouri played Vanderbil tast year, Tigers OB James Franklin was injured early in the game. His backup, who had seen very little action (rFr), was not prepared and hit on 30%, 9-30 passes. The offensive categord and vating series of the other statistics Vanderbil's overall defense to DID NOT HAVE TO NET YON THE PASS & when they did they fit do 20. While Houston's pass defense ratings. NORTHCOAST SPORTS PLUS **MINUS POWER** RATINGS OR

The Power Ratings listed below are not based on the Power Plays, they are based on last year's final computer power rating numbers with the pluses and minuses from the off season changes factored in. They are then adjusted during the course of the season based on the final score of the games that are played on a weekly basis. The Power Ratings listed below can be used for you as a base power ratings to forecast up coming lines and strength of opponents, etc. Once again, they are not based on Power Plays and **they differ from what we have shown in recent years**, which has been our actual computer Power Ratings. These are Northcoast Sports Plus or Minus Power Ratings.

NOTE: Power Plays - PP COLLEGE FOOTBALL NOVEMBER 26TH- 28th

The Power Plays Newsletter consists of forecasts that are made by a special rating system. You will see in the write-ups that we agree with the majority of the PP forecasts. However, there are times when we will disagree. We want to make it clear that this is the PP Newsletter and these forecasts are based purely on the power ratings. If the PP's rating is strong enough to be a 4★ Play, yet we are on the other side of the game, we will clearly state that we like the other side of the game. With all that said here are this week's PP Selections.

Finally it's arrived! Always a customer favorite and AGAIN we are offering Thanksgiving Executive Club Service for the weekend of Thanksgiving (11/26 - 11/30) for a price lower than we charge for a normal Saturday and Sunday of Late Phone Plays! Why? Because this weekend has brought us great success in our 33 year history and it's a great way to let our customers know how thankful we are for their continued trust and business.
